Members, Board of Directors
Folsom, California

Ladies and Gentlemen:

We respectfully submit Public Risk Innovation, Solutions, and Management (also referred to as PRISM) proposed budget for fiscal year 2022/23 for your approval.

Budget Priorities

PRISM's budget continues to be driven by its mission of providing competitive, adaptable, resolute, equitable and stable products and services that address the unique risk financing needs of California's public entities. PRISM Affiliate Risk Captive (PRISM ARC), a blended component unit of PRISM, is a captive insurance company domiciled in Utah established to take certain risks of various PRISM programs.

The hard market conditions in many of our programs continues to be challenging for our members in terms of stabilizing cost increases. As a result we are continuing to evaluate ways to reduce risk (whether that be through providing new services, accessing data to better identify trends, or evaluating legislative opportunities) to ultimately reduce and/or stabilize costs for the members. Equity in sharing those costs amongst the members is also a high priority. During the 22/23 FY, additional attention will be focused on our actuarial and premium allocation methodologies, particularly in the EWC and GL1 Programs.

Our Information Technology Department received approval in the May 2020 Executive Committee meeting to move forward with the development of a proprietary claims system using a development partner and low-code platform. The project began in July of 2020 with the discovery phase of gathering all project requirements. Software development began in March of 2021. The team anticipates the first release of the new system in the fall of 2022. The project is currently budgeted at \$3.7M.

PRISM continues to increase information on its website and functionality for managing our pool (pool information management system). Development continues to expand member facing information and reporting, completion of the Prospect and additional named covered party (ANCP) applications, improved contact management (including, self-service options), and new projects to collect additional WC related data and improve the payroll audit process.

The need for comprehensive and accurate data continues to be of high importance to the insurance marketplace as the renewal process becomes increasingly challenging. As reinsurance reporting requirements continue to increase for all of the major programs, Data & Analytics (D&A) is focused on providing additional information, reports, and data as needed. Work includes more

interaction with our data providers, more frequent collection and submission of data, additional reports, and new supplemental exhibits to the claim summary reports and bordereaux reports.

The D&A team will continue to respond to requests from the markets, provide additional information as it becomes needed, and work with the membership (and their data providers) to improve the timeliness and loss data quality of member experience data.

Significant Trends

While each PRISM program has unique characteristics, there are some significant trends impacting the pool overall. Significant cost drivers for PRISM are 1) the cost of excess and reinsurance in the open market, 2) loss history which influences actuarial estimates of the cost of future losses, 3) prevailing interest rate returns on PRISM's investments and 4) changes in the coverage base and membership (e.g. covered payroll, total insured value). PRISM expects the operating environment in the coming year to be similar to current conditions with the exception of the interest rates as described below.

Market

The insurance market as a whole continues to be in a hard market, meaning that there is less competition and capacity among carriers which drives up rates for excess and reinsurance.

Losses

Losses have had broadly adverse development over the past few years, especially with respect to property and liability programs. Increased property losses were driven in large part by wildfires, while liability losses increased due to both the frequency of claims filed and increased legal and settlement costs (i.e. the severity of losses). Impacts the COVID-19 pandemic are still being quantified and may continue to adversely impact PRISM's workers' compensation programs. Overall, increases in loss history are worked into the actuarial estimates and serve to increase policy rates.

Interest Rates

Low prevailing interest rate yields were the norm in the fixed income investment market for the past several years. This changed with sharp increases in interest rates towards the end of FY21/22. As a result of this increase, the fair market value of PRISM's existing fixed income investments dropped and unrealized mark-to-market losses were recognized. This market adjustment should result in future monies being invested in higher-yielding assets. As a result, revenue projections will increase, as will the pool's discount rates. When discount rates increase, rates charged for coverage may be decreased while maintaining funding at a steady confidence level.

Coverage Base

The hard insurance market has brought more members to PRISM programs as risk financing on the open market becomes unaffordable. These new members expand the coverage base which drives an increase in both revenue and expenses to the pool.

While some relief is expected from future investment earnings, all other significant cost drivers continue to increase PRISM's rates (cost per unit of coverage). These increased rates are then applied to the increased coverage base (number of units covered) resulting in an overall increase in both revenue and expenses to the pool. For FY22/23, PRISM continues to modify and adapt its program structures based on both market forces and member needs.

Cash Flows and Debt

Due to the nature of PRISM's operations, we collect a large amount of premium upfront and use it to pay for reinsurance premiums, risk programs and the payment of claims on retained risk over a long period of time. Therefore, PRISM has a very large Treasury that is invested by professional asset managers. As a result, PRISM has no debt and no plans to acquire debt.

Acknowledgements

We would like to thank the PRISM staff for their dedication and service providing quality programs and services to PRISM members. We would also like to thank our Board of Directors and the members of all PRISM committees for their support and efforts to make PRISM one of the largest and best run risk pools in the nation.

Sincerely,

Gina Dean

PRESENTED TO

**CSAC Excess Insurance Authority
California**

For the Fiscal Year Beginning

July 01, 2021

Christopher P. Morrill

Executive Director

Organization and Reporting Entity

The Public Risk Innovation, Solutions, and Management (PRISM) is a Joint Powers Authority organized in accordance with Article 1, Chapter 5, Division 7, Title I of the California Government Code. The purpose of PRISM is to develop and fund insurance programs, as determined by member counties and other public entities. Such programs may include the creation of insurance funds, including primary and excess insurance funds, the pooling of self-insured claims and losses, purchase of insurance, including reinsurance, and the provision of necessary administrative services.

PRISM is under the control and direction of the Board of Directors, which consists of representatives of the member counties and other public entities. For purposes of control and daily management, PRISM annually elects an Executive Committee consisting of a President, Vice President, and nine Directors. The immediate past president and legal advisor are non-voting members of the Executive Committee. The Executive Committee has appointed a Chief Executive Officer. The Executive Committee is responsible for the oversight of the Excess Workers' Compensation, General Liability 1, MROCIP, and the Miscellaneous Programs. Six program committees have oversight of the other major programs. Additionally, PRISM Affiliate Risk Captive (PRISM ARC), a captive insurance company domiciled in Utah, began operations on July 1, 2016. PRISM ARC was established so that PRISM could transfer to PRISM ARC risks pertaining to its corridor retentions at a discount. PRISM ARC is a component unit of PRISM and is therefore consolidated into its budget and financial results.

The budget includes all programs operated by PRISM and PRISM ARC. The budget conforms to generally accepted governmental accounting standards including the unique requirements for state and local governments set forth by the Governmental Accounting Standards Board (GASB). PRISM follows a zero based budgeting process where all the expenses must be justified for the new year. The accounting records and the budget are prepared and maintained using the accrual basis of accounting. Revenues (insurance and pooled premium) are recognized when earned, and expenses for claims are recognized when known or estimated, rather than when paid. The cost of acquiring capital assets is recognized through depreciation expense over the life of the asset. By approving the Capital Outlay Budget, PRISM is authorized to make the capital asset purchase. PRISM's governing board determines which capital projects move forward based on the needs of the organization and as advised by PRISM management. All projects are consider "funded" in the year they are approved via the Capital Outlay Budget.

Basis of Accounting

PRISM is a single enterprise fund, a proprietary fund used to report an activity for which a fee is charged to external users for goods or services. As such, PRISM's revenue and expenses are driven by members' (counties and public entities) insurance needs. Revenue and expense vary annually based on insurance market conditions, the amount of insurance coverage obtained and the member participation in programs, which varies from year to year. Sources of revenues are member payments for coverage, called Premiums for Transferred Risk, where the amount is used to purchase insurance and Contribution for Retained Risk which is risk pool funding. Other items, like Broker Fees are pass-through where we collect (revenue) and pay out (expense) in similar amounts. Within this single enterprise fund, PRISM operates nine major insurance programs, each as a separate self-balancing set of accounts. The budget also covers a Miscellaneous Program for other

programs offered to member and non-member public entities on a pass through basis, and budgets for general administration and the operation of PRISM's building.

Market

The insurance market operates in cycles that tend to shift every few years. When rates are high and the competition is low, we are said to be in a hard market. When rates are low and competition is aggressive, we are in a soft insurance market. The recent fires contributed to a hardening property insurance market for this year's renewal with the Property program seeing a 11.42% rate increase overall. However, markets are paying particular attention to loss development in our general liability programs. The industry is seeing significant increases in plaintiff demands, jury verdicts and high dollar liability claims. These three factors are depleting the liability market's surplus, capacity and available reinsurers. This trend is affecting all public entities: counties, cities, schools and special districts, particularly in California. And as it affects the industry, it also affected PRISM. For example, claims over \$1M have more than doubled over the last five years. However, due to the size of our liability programs, and the economies of scale, we were able to leverage the volume we bring to the reinsurance markets.

Rates in the cyber market have also increased significantly as cyber attacks and hacking have become increasingly frequent and difficult to predict. PRISM estimates a 70% overall rate increase in the cyber program. However, in a market where other agencies are losing their coverage entirely, PRISM continues to maintain limits of at least \$12M, which would be unlikely for members to obtain on a stand-alone basis. Cyber is a pass thru program for PRISM, hence there is no impact of these increases to PRISM's bottom line.

COVID-19 continues to impact the workers compensation renewals as carriers re-evaluated renewal indications after PRISM's Board determined to set an end date to the 2019 occurrence.

Membership

There are two classes of membership, county members and public entity members. Each member has adopted the Joint Powers Agreement and has been approved by the Board of Directors.

County membership is available to California counties whose supervisors are members of the California State Association of Counties (CSAC). Currently there are 55 member counties. Each County member is entitled to appoint one representative to the Board of Directors. County members have nine positions on the Executive Committee.

Public entity membership is open to any other California public entity. Public entity members have seven voting seats (and three alternates) on the Board of Directors. Two seats on the Executive Committee are designated for public entity members. See member table in the overview chart section of the budget for trend information on member participation in PRISM programs.

Organization

PRISM maintains seventeen committees to govern its operations. Representatives from member entities are elected or appointed to serve on these committees. Seven committees PRISMHealth, Employee Benefits, Dental, General Liability 2, Medical Malpractice, Primary Workers' Comp, and Property govern their respective insurance programs and

report directly to the PRISM Board of Directors. The Excess Workers' Compensation and General Liability 1 programs are monitored by the Underwriting Committee and report to the Executive Committee. Other committees have been established to assist in providing operational direction to PRISM including:

Claims Review and Claims Review 2– Provides direction on the reserving for and settlement of claims.

Finance – Provides direction on PRISM financial matters including the Annual Comprehensive Financial Report (ACFR), annual budget, annual independent audit and investment portfolio.

Legislative – Reviews and provides input on legislative issues that could impact PRISM's operations.

Risk Control – Provides direction on risk management services to be provided to members.

Technology – Provides direction on technology solutions, systems and investments of PRISM.

Member Services – Provides guidance to staff in creation and implementation of new programs and services to the PRISM members.

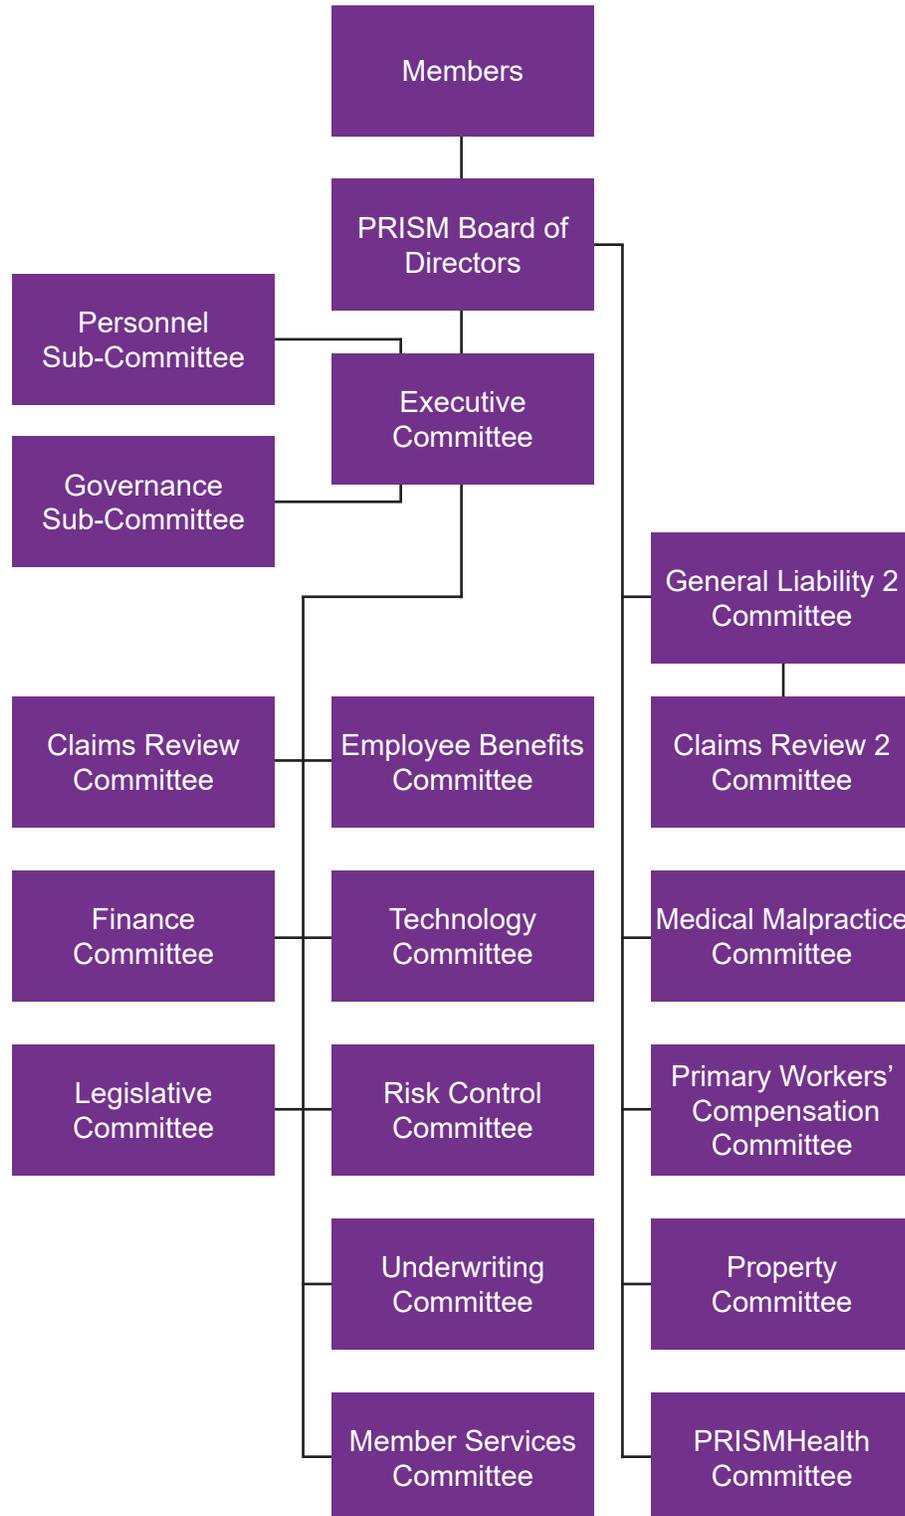

Personnel Sub-Committee – Provides direction to the Executive Committee on matters relating to personnel.

Governance Sub-Committee – Aids in reviewing and making recommendations to the Executive Committee for appointments of committee members.

PRISM

PUBLIC RISK INNOVATION, SOLUTIONS, AND MANAGEMENT (PRISM)

Mission Statement

The Board of Directors has adopted the following Mission Statement:

PRISM is a member-directed risk sharing pool of public agencies committed to providing risk coverage programs and risk management services, which drive member stability, efficiency, and best practices.

Vision Statement

PRISM will continue to be internationally recognized as a leading risk sharing pool for its member-directed operating philosophy and commitment to member fiscal sustainability. PRISM will continue to influence and shape the future of the risk management profession.

Core Values

PRISM is dedicated to preserving a member-directed culture, defining standards for quality and performance throughout the industry, and ensuring programs and services are:

- **C**ompetitive in scope and price over the long term.
- **A**daptable and customized to meet member needs, based on high-quality standards.
- **R**esolute in delivering timely solutions that address present and emerging risks.
- **E**quitable in allocating costs and services between various members in a fair and consistent manner.
- **S**table in supporting cost-effective, fiscally prudent operations and long-term solvency, and in building long-term relationships with members and program/service partners.

Budget Process

The budget process consists of activities that develop, implement and evaluate a plan for the provision of services to fulfill our mission and purpose. The budget process:

- Incorporates a long-term perspective;
- Links fiscal planning with the strategic goals of each major program;
- Involves and promotes effective communication with members; and
- Provides incentives to PRISM's management and employees.

Each year, each governing committee establishes specific short and long term goals for their program. These can be found in the program budget policies that are in each program section of the budget.

PRISM utilizes its committee structure to involve many participants in the development and oversight of PRISM's Budget. The Finance and Executive Committees have a major role in the budget process by providing general direction for the preparation of the budget and adopting policies and providing ongoing input. Each program committee is also involved by adopting policies and providing input for each of PRISM's programs. The Board of Directors is ultimately responsible for review and adoption of PRISM's budget, and any budget revisions.

PRISM's budget includes revenue and expense categories for premium growth due to new members or additions to coverage by existing members, and the related expenses including actuarial adjustments for existing or new coverage. PRISM has been delegated to the CEO to transfer from this category at the PRISM-wide budget level into any program budget as needed to cover these expenses and any dividend expense not included when the budget is adopted.

A budget revision is prepared by PRISM staff whenever additional spending authority is required, or there is a major change in a program budget. The budget revision is reviewed first by the Finance Committee and then by the Executive Committee who will make a recommendation to the Board of Directors at the next meeting. Budget revisions have to be approved by the Board of Directors.

2022/23

Budget Calendar

PRISM strives to make its budgeting process transparent and open to the public. Members of the public are welcome at all governing and Committee meetings and time is set aside in each meeting for public comment. Agendas are posted publically in advance of each meeting.

January 2022

- Major budget items are presented to the Executive Committee for discussion and direction.
- Throughout the spring, governing committees review and revise the budget policies and program goals for the upcoming fiscal year.

April 2022

- Personnel and salary items are presented to the Personnel Sub-Committee.
- The Personnel Sub-Committee presents a recommendation to the Executive Committee on personnel matters.
- The Finance Committee reviews and approves or revises the General Administration and Building budgets.
- Staff revises the General Administration and Building budgets based on the Finance Committee's recommendations.
- The Finance Committee recommends approval of the General Administration and Building budgets to the Executive Committee.

May 2022

- The Executive Committee reviews and approves or revises the General Administration and Building budgets.
- The Finance Committee reviews and approves or revises the final consolidated (all programs) proposed budget.
- Staff revises the final consolidated (all programs) proposed budget based on the Finance Committee's recommendations.
- The Finance Committee recommends approval of the final consolidated proposed budget to the Executive Committee.

June 2022

- The Executive Committee reviews and approves or revises the final consolidated proposed budget.
- After any proposed changes are completed, the Executive Committee presents a recommendation to Board of Directors to approve the final consolidated (all programs) budget.
- The Board of Directors reviews and approves or revises the final budget.

As necessary, staff will prepare budget revisions, present them to the Finance and Executive Committees for review, and if recommended, to the Board of Directors.

PRISM Long-Term Goals

Communication, Outreach and Influence

1. PRISM will strengthen its influence as a leader in promoting the importance of sound risk management and a risk management environment, which maintains the long-term health and stability of public agencies.
2. PRISM will support members and the public agency community in building competency in risk management.
3. PRISM will continue to grow member utilization of PRISM partner programs and services.

Member Programs, Products and Services

4. PRISM will offer a full suite of innovative, cost cutting programs and services that address members' needs, and will be vigilant in identifying and developing solutions for emerging risk.

Organizational Development and Sustainability

5. PRISM will expand its membership base to offer members even greater cost savings.
6. PRISM will improve service to members through advanced use of technology and the development of quality data and analysis.
7. PRISM will ensure there is equality in membership as described in our Core Values

PRISM senior managers hold bi-monthly meetings to review progress or impediments to achieving each milestone which in turn leads to achievement of organizational goals. Additionally, PRISM staff reports progress made on each milestone to the Board of Directors at their June and October meetings. For a copy of the complete Strategic Plan including all milestones and status detail, see: <https://www.prismrisk.gov/about-prism/prism-long-term-strategic-goals-milestones/>.

Guiding Long-Term Fiscal Policies

The following long-term fiscal policies were developed to give PRISM members a competitive advantage. These policies have guided PRISM through the ups and downs of the economic cycles and the constantly changing insurance market. These policies are designed to keep PRISM in a sound financial position and protect the resources members have invested in PRISM.

1. Provide members with the benefits from volume discounts.
2. Blend self-insurance with the purchase of insurance.
3. Provide the opportunity of premium dividends to our members.
4. Structure programs that are responsive to member needs.
5. Maintain long-term relationships.
6. Maintain financial strength

Volume Discounts

PRISM's insurance programs shall seek to obtain volume discounts from members joining together. Pooling arrangements and the purchase of insurance can both benefit from volume discounts.

Pooling

Larger retained risk pools results in:

- More predictable losses
- Higher actuarial confidence
- The ability to assume more risk
- Insulation from insurance market cycles

Insurance Purchase

Volume purchasing can result in:

- Lower insurance rates
- Better coverage agreements

Blending Self-Insurance with the Purchase of Insurance and Transfer of Risk

PRISM's insurance programs shall seek to blend the best of self- insurance or pooling with the best of insurance purchase and transfer of capped risk to PRISM ARC. The benefits of blending pooling with the purchase of insurance and transfer of risk are as follows.

Pooling

- Contributions stay with members
- The pool earns investment income
- Members have the potential for dividends

- Pooling eliminates insurance cost
- Members retain program control:
 - Members define coverage agreements
 - Members control the claims

Insurance

- Provides protection from catastrophic losses
- Protects pool funding
- Reinsurance can:
 - Offer broad coverage agreements
 - Lower acquisition costs
 - No taxes or fees

Transfer of Risk to PRISM ARC

- PRISM ARC accepts transfer of capped risk by various PRISM programs at discounted premiums.

Dividends to Members

Retaining risk through the many PRISM risk pools has allowed PRISM to return \$52M in dividends to members during the past ten years.

Structure programs that are responsive to members needs

PRISM has nine major programs designed to serve our members as follows:

1. Primary Workers' Compensation (PWC)
2. Excess Workers' Compensation (EWC)
3. General Liability, Program 1 (GL1)
4. General Liability, Program 2 (GL2)
5. Property
6. Master Rolling Owner Controlled Insurance Program (MROCIP)
7. Medical Malpractice
8. PRISMHealth
9. Dental

The structure of each of these programs has changed over the years based on market conditions and member needs. Each program structure has taken the best of pooling and purchase of insurance to create a program responsive to current member needs.

Long-term Relationships

Many PRISM programs have benefited from long-term relationships with various underwriters. Multi-year agreements have stabilized costs, improved coverage and saved premium resources. Long-term programs have proven to be effective in both hard and soft insurance markets. In addition, PRISM seeks to maintain or increase member participation in its programs. PRISM has consistently increased member participation

and currently has 55 county members and approximately 2,000 public entity members (counties, cities, school districts, fire departments, etc.) participating in its programs. See member table in the overview chart section of the budget for trend information on member participation in PRISM programs.

Maintain Financial Strength

Balanced Budget

The overall PRISM budget is a balanced budget, meaning that budgeted revenue exceeds expenditures and provides a budgeted increase to net position.

Target Equity Funding

PRISM has established target equity guidelines for the major pooled programs and the General Administration program, which assist in keeping equity (net position) at levels designed to meet future claims obligations of that particular program. Most of these ranges are based on confidence levels higher than the expected discounted claims liabilities because of the high degree of uncertainty in actuarial estimates (due to the possibility of occasional catastrophic claims) and inconsistent or inaccurate case reserving. A confidence level of 50% means half the time claim costs will come in lower, but conversely, half the time claim costs will be higher.

If a program has net position above the target equity range, a plan is put in place to lower premiums or provide dividends over time to return to the target range. If the program has net position below the target equity range, a plan is put in place to increase premiums or collect additional funds over time to return to the target range. Where the program is within its target equity range and efforts to stay within the range, is a significant measure of the program's performance. This benchmark is closely monitored, year over year, by the governing committees. The target equity ranges are shown as the last line on each program's budget, as applicable.

Capitalization and Debt Policy

The original capitalization of PRISM in October 1979 was provided by certificates of participation by the founding member counties. PRISM has paid off these certificates of participation and has incurred no debt since the extinguishment of these obligations. While PRISM's governing documents do allow for debt capitalization, PRISM has no immediate plans to use debt to finance its operations. There are no legal debt limits that apply to PRISM.

Investment Policy

PRISM blends self-insurance (or pooling) with the purchase of insurance and transfer of risk to PRISM ARC. PRISM retains the risk for the self-insured portion, and thus retains member premiums (sometimes for decades) to satisfy future claim liabilities. PRISM has an investment policy designed for safety and liquidity of invested funds while providing a reasonable yield. PRISM ARC maintains its own investment policy which is reviewed annually and updated by PRISM ARC Board of Directors.

PRISM accounts for the cash and investments within each of the programs. Investment income is allocated to the programs based on projected earnings from the portfolio of investments and the average projected investment balances in each program. Inter-program borrowing expense is based on the established internal borrowing rate, which reflects the anticipated yield on investments.

PRISM Long-Term Operating Financial Plans

Long-term operating financial plans for PRISM are executed in the framework of the long-term fiscal policies discussed in the previous section.

Core to the future success of any risk-financing entity is the recognition that accumulation and maintenance of sufficient net position (i.e. equity) allows for flexibility when there are shifts in external cost drivers. To that end, each of PRISM's major programs have developed target equity thresholds to guide funding decisions which impact future program equity. When equity is above the target funding guidelines the program may give money back to the members in the form of a dividend.

Expectations for External Cost Drivers

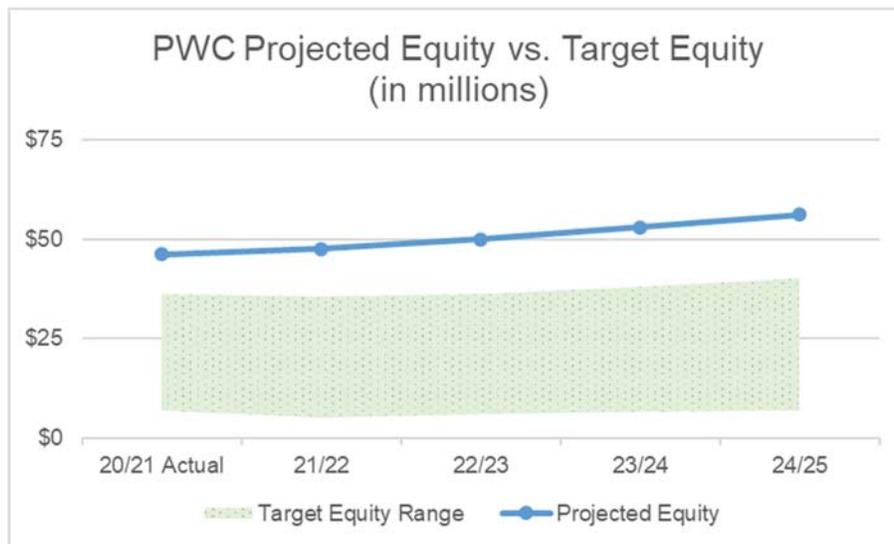

With respect to external cost drivers, for the next three years we expect the following:

1. **Insurance will continue with its hard market.** While the increase in prevailing interest rates will likely result in more capacity in the insurance market, adverse loss development in liability and property claims will keep commercial underwriting standards strict and competition low.
2. **Losses for liability programs will remain elevated over historic levels; workers' compensation losses will be stable.** The median value of PRISM's top 75 liability claims in the GL1 program have almost doubled over the past 3 years. This is consistent with results seen by PRISM's contemporaries in California. Management expects that adverse loss development will not continue at such a rapid pace, but that the current environment likely reflects a new norm. Workers' compensation claims have been relatively stable and we expect them to remain so.
3. **Membership and coverage base will remain stable.** This is predicated by past membership growth and acknowledges that public agencies will continue to need insurance. Given that membership will remain stable, the related coverage base (e.g. covered payroll for workers' compensation) will likely grow somewhat relative to inflation.
4. **Interest rates will continue to increase and eventually stabilize.** Heavy investment in fixed income securities mean that there is interest rate risk when prevailing rates go up or down and a mark-to-market adjustment must be made, but such investments always pay the stated coupon rate except in cases of default. Accordingly, PRISM expects positive realized interest rate returns on its fixed income investments which are held to maturity. Future finance projections have built in a modest increase in interest rates reflective of the current investment market.

Equity Projections by Major Program

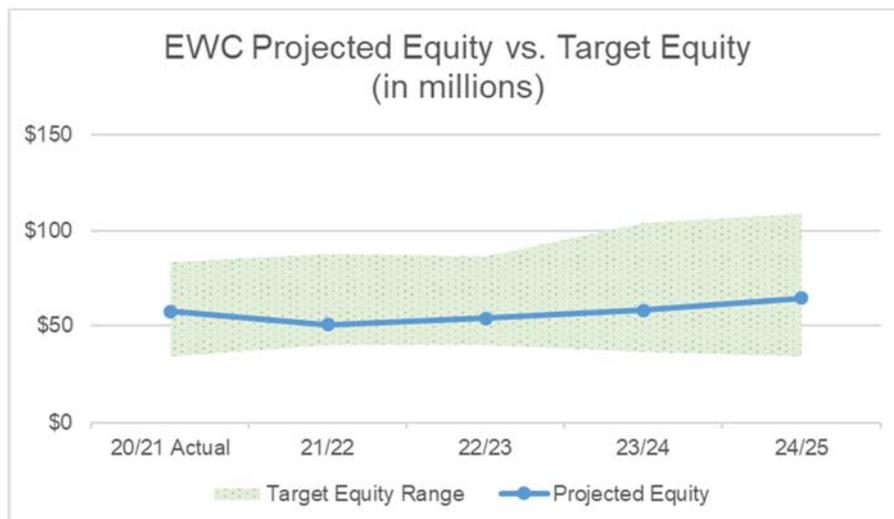

Primary Workers' Compensation (PWC)

Equity growth in the program is expected as retained risk and ULAE continue to be funded at the 90% and 80% confidence levels, respectively. Actual cost of claims and ULAE are expected to be less than the funded amounts and the difference should be retained as net position. This program does not discount its liabilities and is not anticipating significant investment returns as part of its projections. Since the equity in this program is above and estimated to be above the funding range in the years shown, future dividends may be issued.

Excess Workers' Compensation (EWC)

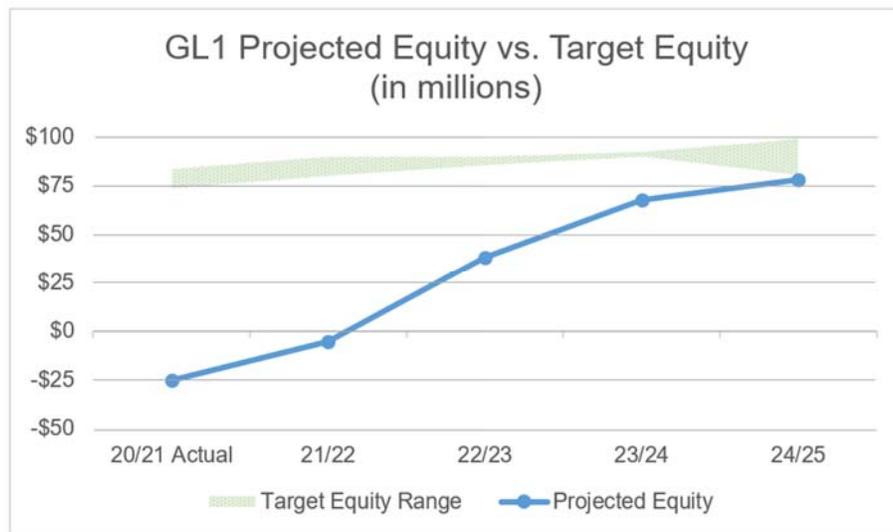

The EWC program currently transfers most risk to outside carriers, with a few, relatively small, corridors retained by the pool. Projections for increased equity in the EWC program are driven by expected investment returns and funding of the retained corridors at a higher than expected confidence level – between 80% and 85%.

General Liability 1 (GL1)

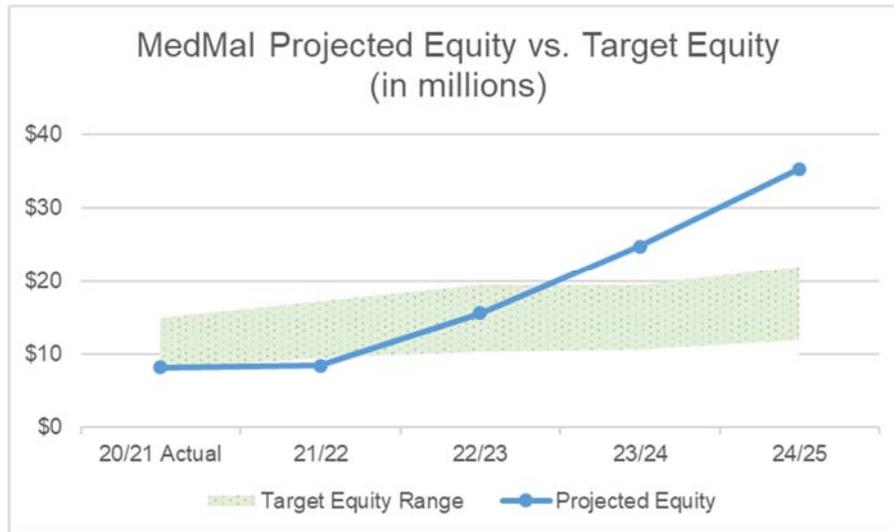

In FY19/20, the GL1 program entered into Loss Portfolio Transfer (LPT) to MultiStrat Reinsurance (MS Re). The agreement transferred all of the Program's unpaid claims as of April 1, 2019, for claims that occurred on or after July 1, 2007 (excluding Primary General Liability Legacy claims), as well as the next 5 years of go-forward claims (2019/20 – 2023/24) within the pooling layer.

The reinsurance arrangement has enabled the Program to gradually increase the rates to re-build the Program surplus. Due to the LPT, staff projects that the GL1 Program will be in a net surplus position of \$38M at the end of the 22/23 fiscal year and will continue to increase from there as new premiums are collected at higher confidence levels. However, equity in this program is not expected to be its target equity range – currently \$85.1M to \$89.5M – in the next three years.

Medical Malpractice (MedMal)

The MedMal program currently retains risk excess of member deductible to \$3.5M per occurrence. Risk above this layer are transferred with a relatively small corridor being reinsured by PRISM ARC. Projections for increased equity are driven by expected investment returns and funding of the retained risk at the 80% confidence level. Since the equity in this program is above and estimated to be above the funding range in the years shown, future dividends may be issued.

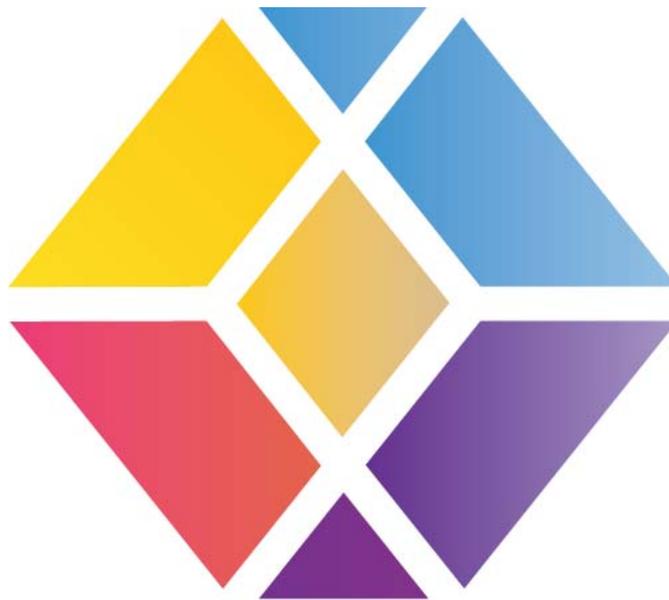

Overall Outlook

In accordance with PRISM's long-term fiscal policies, the pool will:

- continue to leverage its size to secure volume discounts on insurance purchases,
- fund pooled risk above the expected confidence level,
- transfer risk to PRISM ARC when appropriate, and
- plan for a balanced budget where revenues exceed expenses and build towards maintaining program equity within target ranges.

Public Risk Innovation, Solutions, and Management (PRISM)

CALIFORNIA

CONSOLIDATED BUDGET

For the Fiscal Year
July 1, 2022 to June 30, 2023

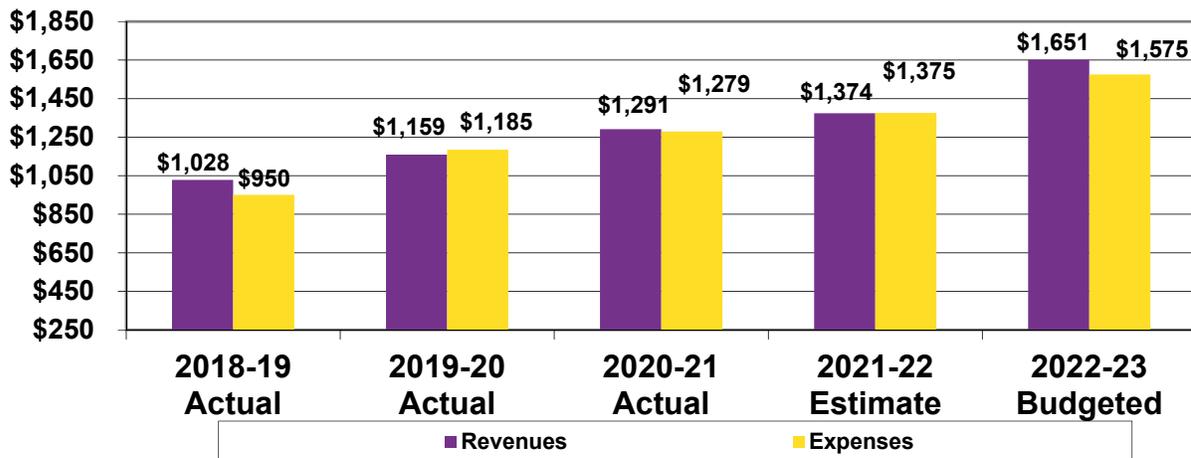

PRISM Budget

The budget has \$77.8M increase in net position before dividends, and a dividend expense of \$2M, producing an \$75.8M increase to net position. This is a balanced budget, meaning that budgeted revenue exceeds expenditures and provides a budgeted increase to net position. The budget includes a number of new initiatives as outlined in the transmittal letter. Included are the consolidated and individual program budgets. Highlights of the 2022/23 proposed budget are as follows:

- Total revenues are budgeted at \$1.65B, an increase of \$165.8M over budgeted 2021/22.
- Total expenses are budgeted at \$1.58B, an increase of \$138.9M. Expenses include returning dividends of \$2M to members.
- Net position is projected to increase to \$260.8M at June 30, 2023.

Revenues and expenses for the 2022/23 budget and the past four years are as follows:

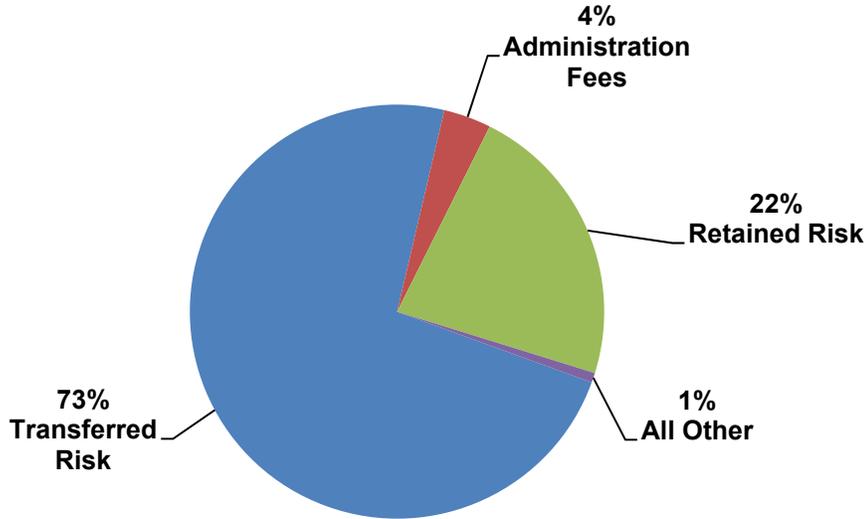

**Revenues and, Expenses
Fiscal Years 2018-2023
(in Millions)**

Revenues

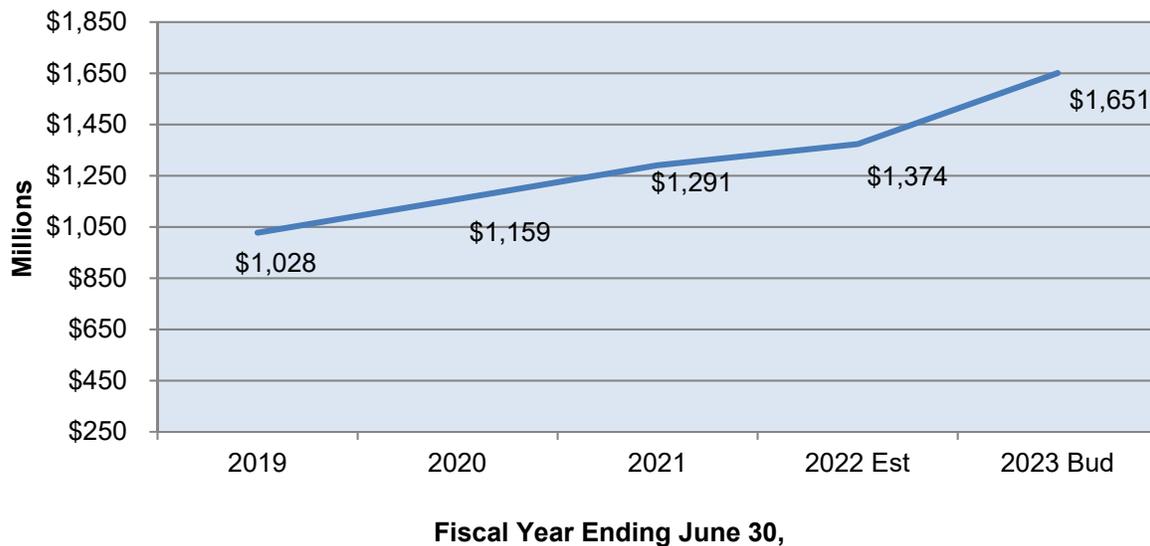

Sources of revenues are illustrated in the following chart:

Total Revenues by Category

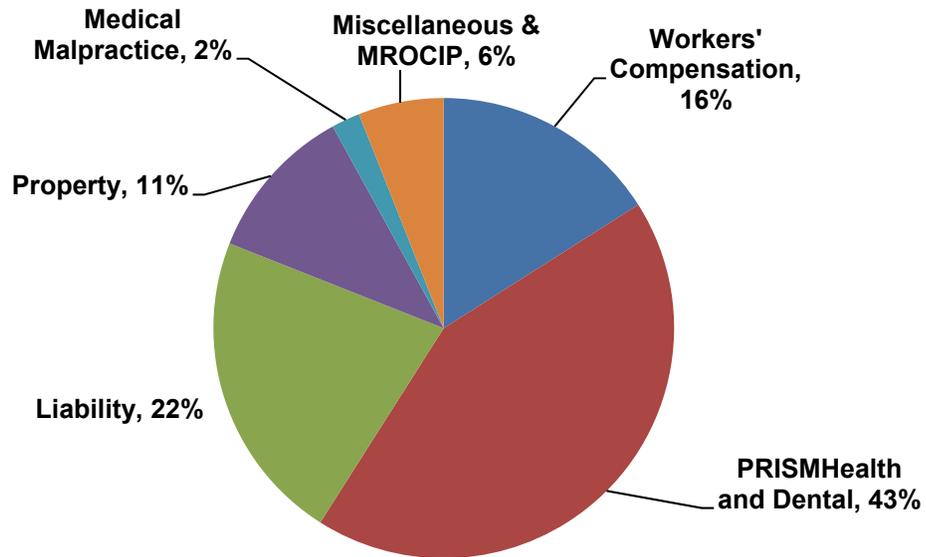

The \$1.65B in revenues represents a \$165.8M or 11.2% increase over the 21/22 budget, and a 61% increase over the last five years. Growth in membership, new programs, and additional pool funding and higher premiums for transferred risk accounts for much of the increase in revenues and expenses year over year. The following chart illustrates the growth of PRISM revenues:

Total Revenue Trends

The following chart shows revenues by program.

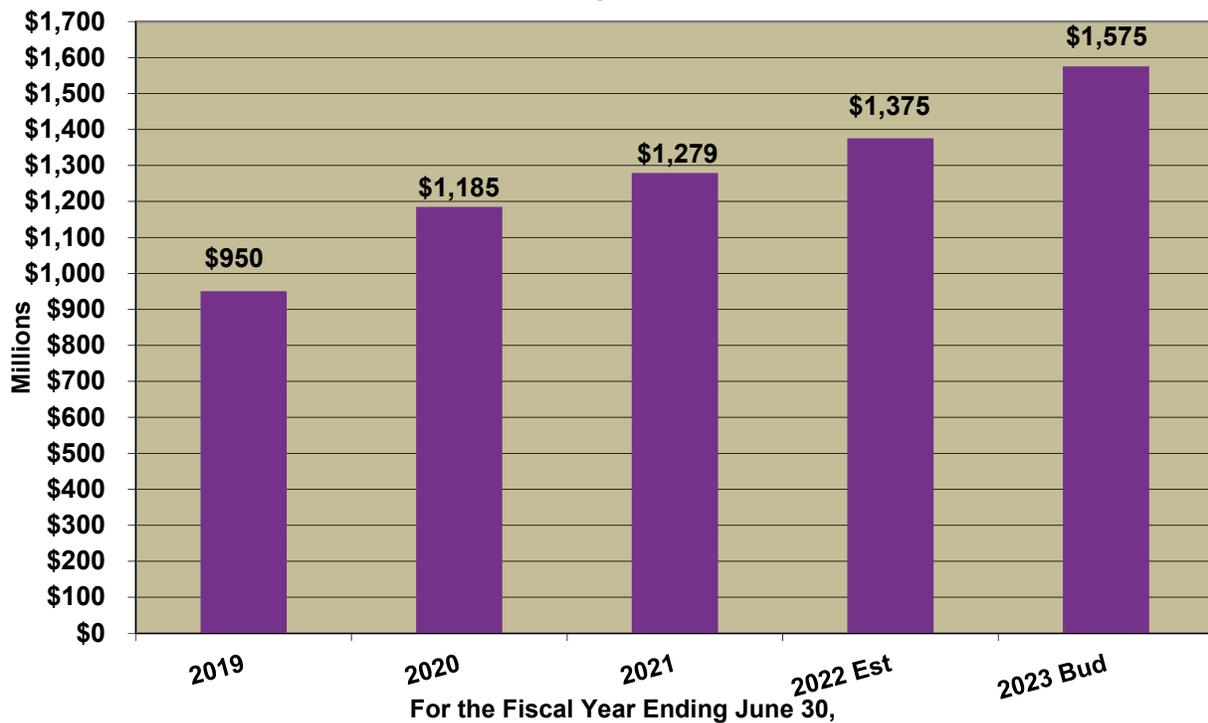

2022/23 Budgeted Revenues by Program

Expenses

PRISM expenses for fiscal year 2022/23 are budgeted to be \$1.58B and have increased \$138.9M or 9.7% over last year's budget. The following chart illustrates the increase of PRISM expenses:

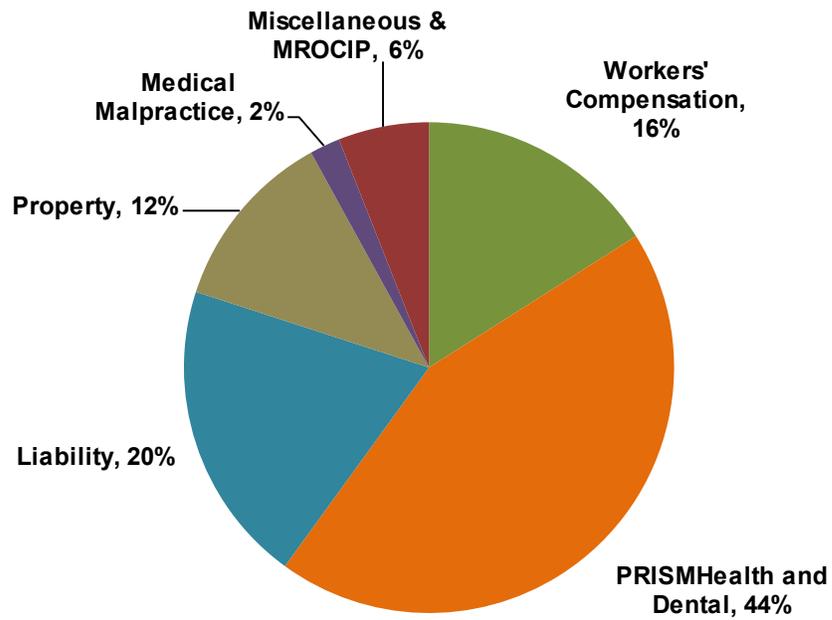

Total Expense Trends

Budgeted expenses support all PRISM programs. These programs include primary and excess workers' compensation programs, a property program, a medical malpractice program, two employee benefits programs and some ancillary programs.

The distribution of expenses by program is illustrated in the following chart:

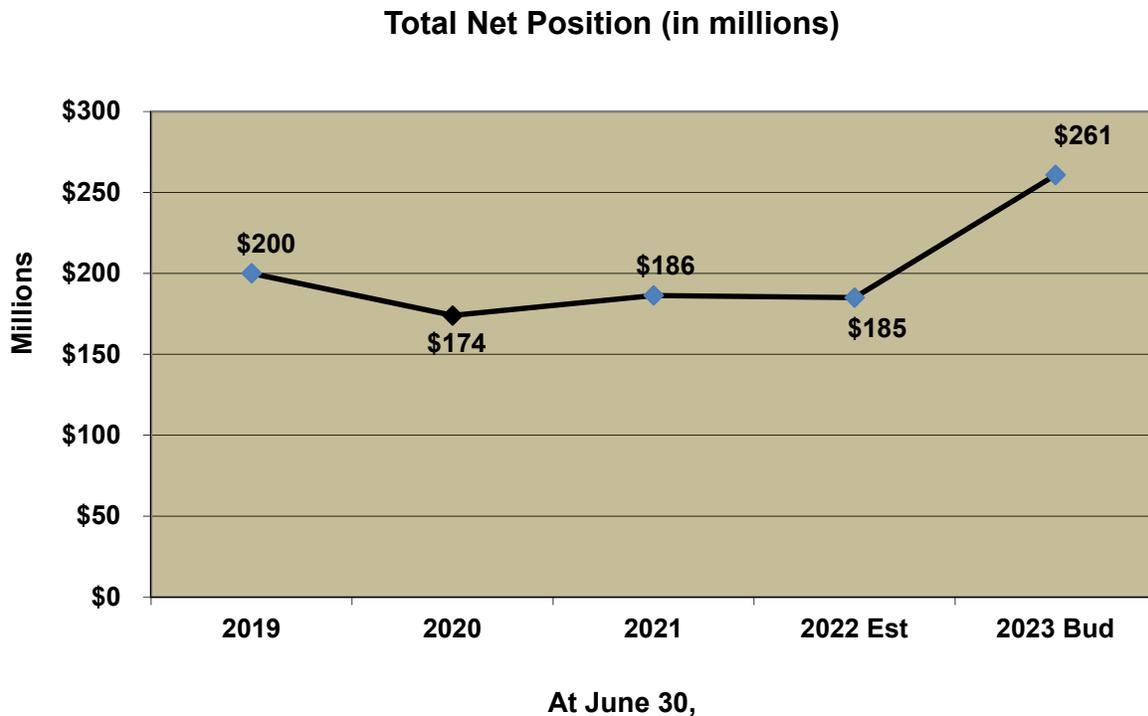

2022/23 Budgeted Expenses by Program

Net Position

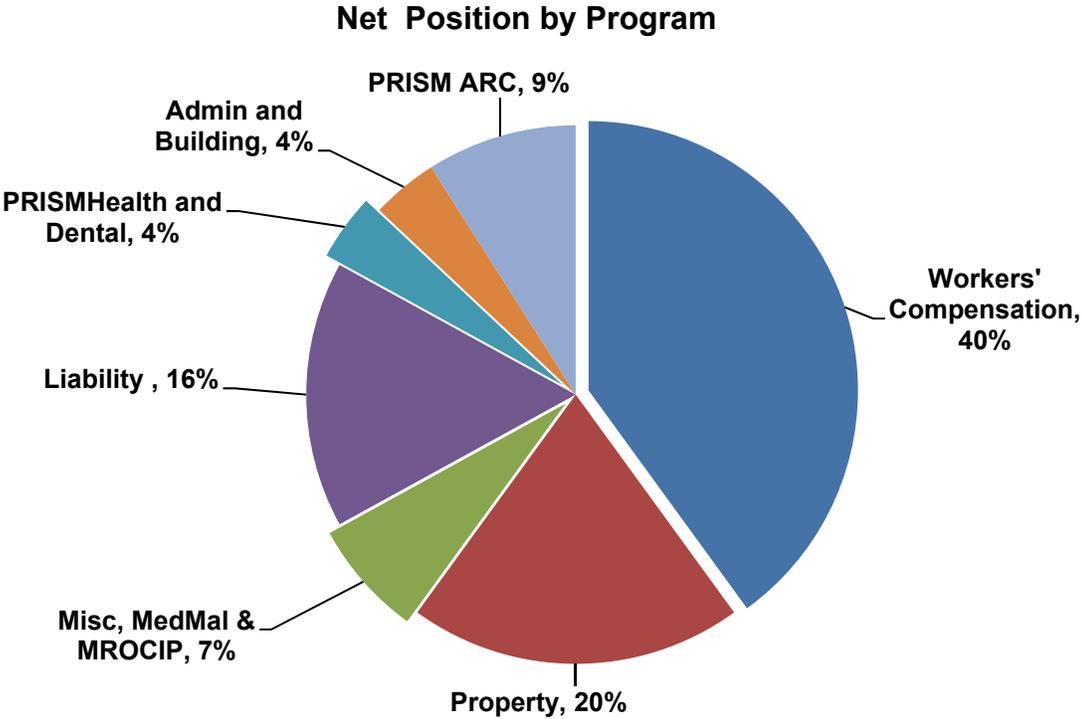

Net position is calculated by adding total Assets and Deferred Outflow of Resources, and then subtracting Liabilities and Deferred Inflow of Resources. Net Position represents investment in capital assets as well as unrestricted fund balance available for future operations or distribution. The projected Net Position at June 30, 2023 is \$260.8M. The budget includes a return of net position in the form of dividends of \$2M.

The five year comparison of the Net Position balance is illustrated in the following chart:

The causes of year over year changes in Net Position vary by program. Significant program-specific changes in Net Position are discussed in the individual program budgets.

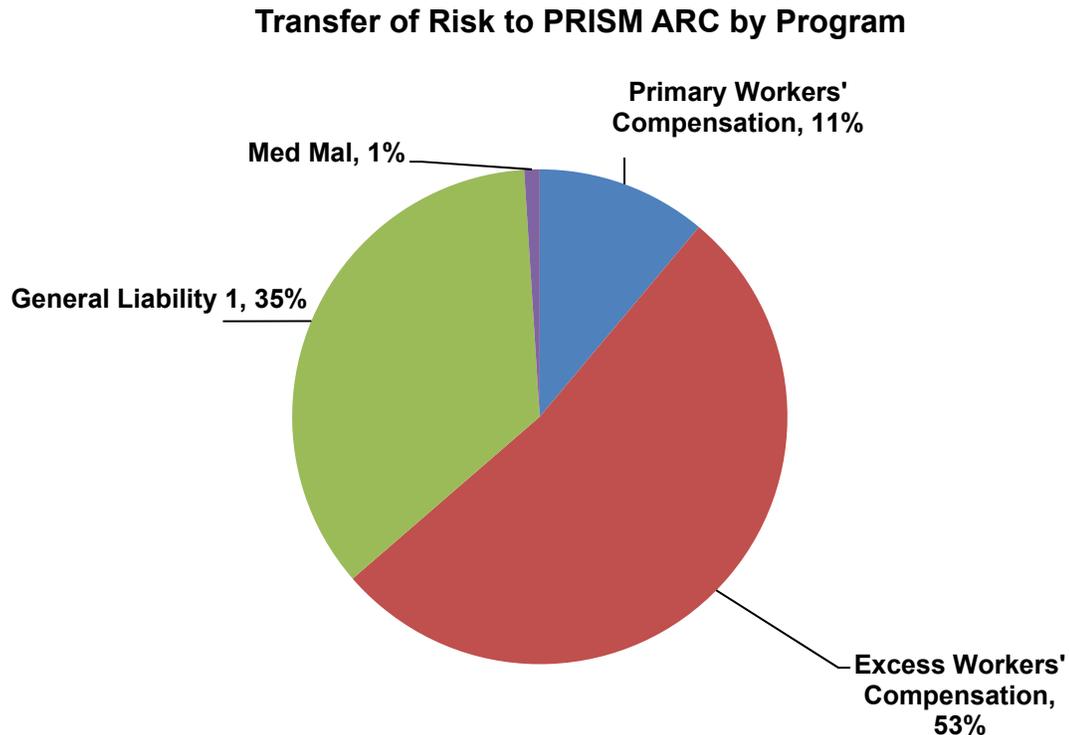

The distribution of 2022/23 budgeted Net Position by program is illustrated in the following chart:

Transfer of Risk to Captive (PRISM ARC)

PRISM ARC is a captive insurance company domiciled in Utah. PRISM transfers its program corridor retentions, which is capped risk, to PRISM ARC at a discounted rate.

The distribution of 2022/23 transfer of risk to PRISM ARC by program is illustrated in the following chart:

Capital Budget

The Capital Outlay Budget presents our anticipated investments in proprietary claims system development cost, property, equipment, and software. The related depreciation and amortization of capital assets represents less than 1% of PRISM's combined budget. The proprietary claims system will be used to house PRISM's claims for most major programs. The new system will be designed specifically to meet the needs of PRISM from an excess perspective. Additionally, the system will be designed with direct member use and the expansion of PRISM nationally in mind. This allows the system to be more adaptable and accommodate the needs of PRISM with regard to reinsurer reporting and member needs. Overall the new system will save PRISM between \$300-\$500K annually.

Member Participation

PRISM provides insurance programs and risk management services for its county and public entity members. Member participation is counted in terms of units. If a member participates in one program, it is considered one unit. If a member participates in three different programs, it is considered three units. The table indicates both the number of members participating as well as the number of units, i.e., total programs in which the members participate. Maintaining and increasing membership at both the program and

entity wide level is an overall goal, and a measure of the strength and vitality of PRISM. Of note is that some of our public entity members are Joint Powers Authorities (JPA) that cover many members.

	Fiscal Year-End						Budgeted 2023

PROGRAM BUDGETS

For the Fiscal Year
July 1, 2022 to June 30, 2023

Primary Workers' Compensation

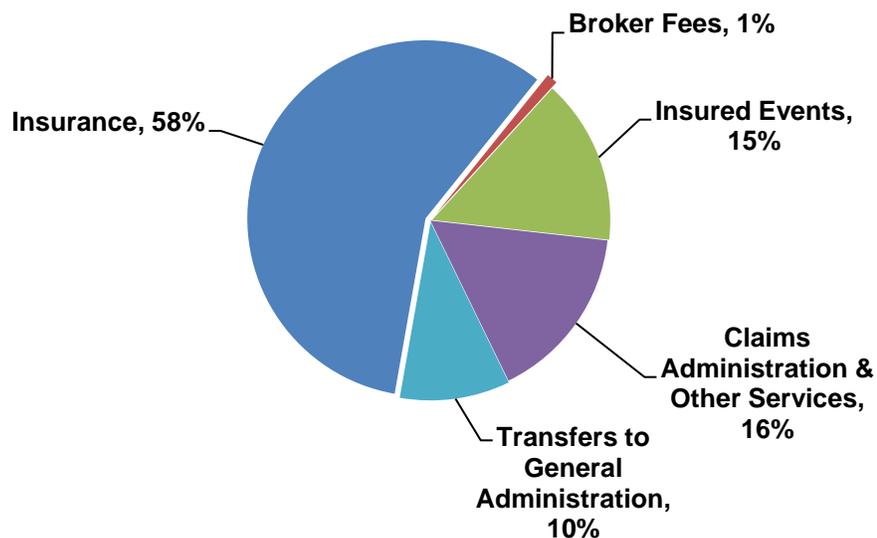

The objective of the Primary Workers' Compensation (PWC) Program is to provide members with an option to eliminate the Excess Workers' Compensation (EWC) self-insured retention and purchase first dollar coverage. The Program pools the first \$10k of loss expense, and then has excess coverage in place to cover the next \$115k of loss. Above \$125k, members participate in the EWC Program. Since this is a first dollar program, the PWC Program also includes the cost of claims administration.

Program Revenue Summary:

Number of Members	37
Covered Payroll	\$2.7 Billion
Pool Premium	\$9.9 Million
Insurance	\$19.5 Million
Premium to ARC	\$14.9 Million
Public Entity Broker Fees	\$836 Thousand
ULAE Premiums	\$9.4 Million
Administration and Fees	\$6.9 Million

A summary of the PWC Program budget is as follows:

Primary Workers' Compensation Program - Expense Summary

The PWC Program proposed budget would result in an ending net position of \$50.1M at June 30, 2023. The target equity range developed by the Underwriting Committee and approved by the Board of Directors is from \$6.3M - \$36.3M.

Primary Workers' Compensation (PWC) **Program Budget Policy**

Program Goals for the PWC include the following:

Short Term Goals

- Continue to evaluate new service offerings.
- Continue with the development of marketing and educational materials for members.
- Evaluate opportunities to reduce the program's cost by adjusting the program structure or reinsurance placement.
- Continue looking for ways to increase engagement with PWC members.
- Enhance the new committee member onboarding experience.
- Evaluate the cost-benefit of rotating meetings in northern and southern California, as well as options for members to participate via web conference.
- Continue to review program policies and make revisions where appropriate.
- Continue to evaluate transfer of risk opportunities in the PRISM ARC captive.

Medium Term Goals

- Preserve a structure that minimizes/eliminates assessment risk.
- Reach resolution on claims in dispute with CIGA on claims they have denied asserting "other insurance" is available.
- Retain 100% of current members and show strategic growth regarding payroll and number of members.
- Continue work on Strategic Goals as updated.
- Develop PRISM's claims system for PWC TPAs' claims administration.

Long Term Goals

- Each member receives annual claims analysis report with benchmark data (frequency, severity, deviation from norm).
- TPAs have consistency in claims handling practices.
- The PWC risk tolerance is low to very low. We will protect pool assets through appropriate risk transfer with a bias toward risk transfer rather than pooling in order to provide members with a guaranteed cost program when possible.

Budget Policies for the PWC Program include the following:

Revenues

- Premiums for retained risk are calculated based on each member's actuarially determined estimate of the discounted ultimate cost of claims. The actuarial confidence level and discount rate is determined annually by the PWC Committee.

- Premiums for transferred risk are calculated based on each member's estimated payroll and experience rate, as determined by the Program's actuary. A two-year smoothing technique is used to minimize rate changes.
- At the end of each year, members are required to update payroll estimates with actual payroll totals. Adjusting for actual payroll is commonly referred to as the payroll audit. Premium changes resulting from the prior year's payroll audit are recognized in the current year as additional or return premiums due to or from each member.
- Unallocated Loss Adjust Expense (ULAE) premium is based on an estimate from the Program's actuaries of the cost of external TPA Fees and Self Insurance Plans fees for the life of the claim, at the confidence level determined annually by the PWC Committee.
- Broker fees are charged to all public entity members. The amount charged is based on our broker contract and is a graduated rate based on premiums. The current broker fee rates are 10% of the first \$100,000 of premiums, plus 5% of premiums from \$100,000 to \$1,000,000, and 3% of premiums excess of \$1,000,000.
- The Risk Management Subsidy Program was created to offset the direct costs members incur from securing external risk management products and services. Unless a member opts out, the Risk Management Subsidy is \$1,000 each year.
- Investment income is budgeted at an estimated earnings rate determined annually and applied to the average daily balance invested in the PRISM Treasury. The estimated earnings rate is determined by the Finance Committee and approved by the Executive Committee and Board of Directors. The estimated earnings rate is also the rate established by the Inter-Fund Borrowing Policy.
- Members may elect to pay their premium on a monthly, or quarterly, basis. Finance fees are charged based on the internal borrowing rate approved in the Inter-Fund Borrowing Policy and the term of the financing.
- Administration fees are based on the budget for program and general administration costs and subsidies. Any carryover credit from previous years' administration expense will reduce the current budget year's Administration fees charged to the members, unless otherwise determined by the Committee. Program costs are defined below.

Expenses

- The PWC Committee annually considers returning available net position to members in the form of member dividends. The PWC Committee generally evaluates the amount of net position available for dividends as the balance in excess of the 90% confidence level.
- PWC insurance premiums include the cost of insurance for claims transferred to an insurance company. Coverage limits are determined annually by the PWC Committee. Claim costs in excess of \$125,000 are covered by the EWC Program.
- The provision for claims current and the provision for claims prior years, is the actuarial adjustment to claim liabilities.

- The Provision for ULAE accrues the cost not directly associated with specific claims but related to claims administration and settlement for the remaining life of the claims, and is charged as part of the Admin Fee. The provision includes both the actuarial amount related to the external TPA fees and Self Insurance Plans Fee and the internal (PRISM) program administration costs.
- The Claims Administration line item provides for the fees to the approved PWC claims administrators (Third Party Administrators). TPA contracts are reviewed and considered for renewal by the PWC Committee.
- Member claims audits are scheduled for each TPA every two years, or as determined by the PWC Committee.
- Other program expenses include legal, ISO fees, employment practices legal consulting services, managed care oversight services, and any other expenses approved by the PWC Committee.
- Banking services and fees are used to maintain separate claim bank accounts for each TPA.
- The California State Office of Self-Insurance Plans assessment fees are levied by the Department of Industrial Relations to pay for the self-insured employer assessments for:
 - Workers' Compensation Administration Revolving Fund
 - Uninsured Employers Benefits Trust Fund
 - Subsequent Injuries Benefits Trust Fund
 - Workers' Compensation Fraud Account
 - Occupational Safety and Health Fund
 - Labor Enforcement and Compliance Fund
- The claims system expense includes the cost to operate our claims system.
- An expense budget of \$50,000 has been delegated to the PWC Committee for any unforeseen budget expenses. The PWC Committee may allocate these funds to any expense line item with a two-thirds vote of the Committee.

Transfers

- Transfers out to the general administration program are used to pay for PRISM staff and all other administrative costs. These administration costs are allocated to all PRISM programs based on a three-year average of staff time.
- A risk management subsidy of \$1,000, per member, plus any additional amounts elected by members, is transferred to the general administration program and added to each member's risk management subsidy account balance.
- The claims system transfer is based on program usage.
- Investment Fees are charged on the average daily balance of program funds invested.

Excess Workers' Compensation

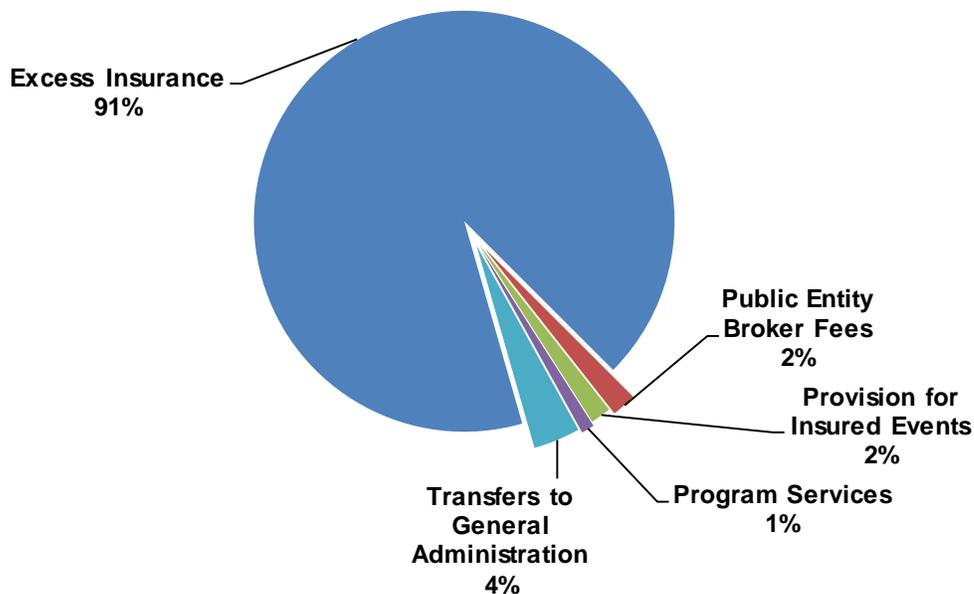

The objective of the Excess Workers' Compensation (EWC) program is to provide members an affordable Excess Workers' Compensation Program. The EWC Program provides members with the economic benefits of blending self-insurance or pooling, with the purchase of insurance.

Program Revenue Summary:

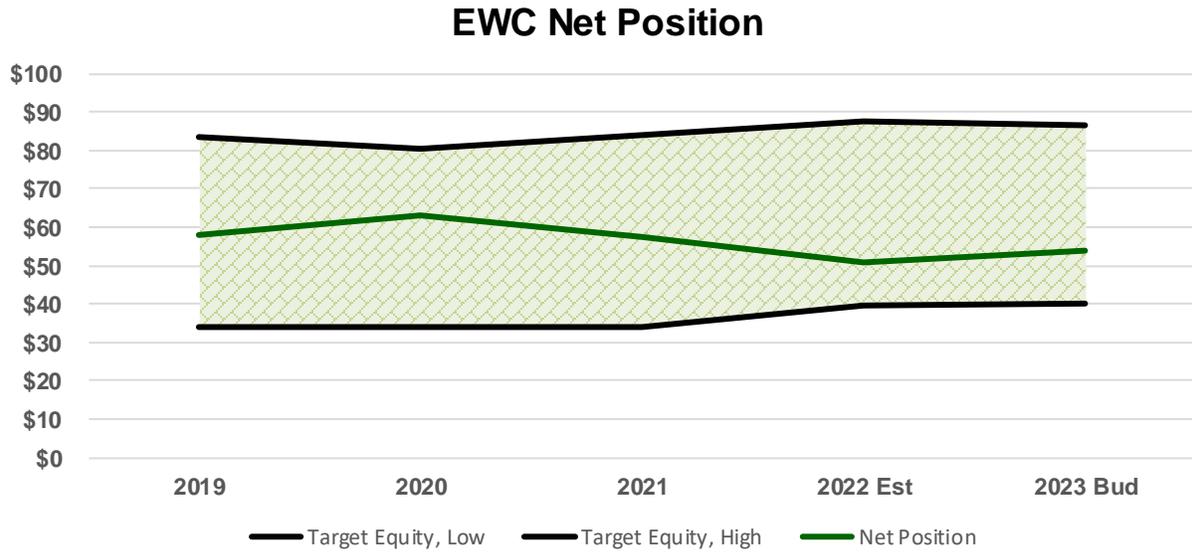

Number of Members	182
Covered Payroll	\$36.5 Billion
Pool Contribution	\$2.9 Million
Insurance	\$105.5 Million
Premium to ARC	\$71.3 Million
Broker Fees	\$3.6 Million
Administration and Fees	\$9.8 Million
Loss Prevention Subsidies	\$1,000 per member

A summary of the EWC Program budget is as follows:

Excess Workers' Compensation Program - Expense Summary

The EWC Program proposed budget would result in an ending net position of \$54.0M at June 30, 2023. The target equity range developed by the Underwriting Committee and approved by the Board of Directors is from \$40.0M - \$86.8M. The following chart illustrates the EWC's net position in relation to the target equity range.

Excess Workers' Compensation (EWC) Program Budget Policy

Program Goals for the EWC Program include the following:

Short Term Goals

- Re-evaluate the risk tolerance and the balance between pooling and transferring risk to the commercial insurance market, with a heavier emphasis on pooling.
- Increase service offerings to the members.
- Set rates for the upcoming year at a level designed to keep the Program's Net Position within the target funding range.
- Evaluate ways to mitigate the Program's long-term exposure to uncollectible reinsurance.
- Use multi-year underwriting matrices, wherever possible, to help ensure renewal pricing from underwriters at a "not-to-exceed" amount of 10% for the upcoming year.
- Continue to monitor the long-term discount assumption and make conservative adjustments, as needed.
- Continue to move members from annual to monthly reporting of loss data in order to have up to date data for the renewal process and carrier discussions.
- Continue Implementation of the data analytics platform to allow for benchmarking of claims data, with additional members being brought onboard and new functionality being provided in 2022/23.
- Continued focus on settling claims, including those with high-exposure, via Compromise and Release.
- Utilize data scientist to create automated claim summaries to aid PRISM claims staff, and develop models to identify claims trends and mitigation points.
- Continue to consider risk transfer opportunities to the PRISM Captive.

Long Term Goals

- Maintain funding levels in accordance with the Target Funding Guidelines.
- Maintain an equitable distribution of costs amongst the members through a premium allocation process, with appropriate consideration for loss experience within the pool layer and excess layers.
- Maintain stable pricing year-over-year striving not-to-exceed a 10% variance.
- The EWC risk tolerance is between neutral and high. We will protect pool assets through appropriate risk transfer with a bias toward more risk transfer in a soft market and less risk transfer in a hard market. There is a bias toward risk transfer when losses are less predictable and a bias toward risk retention when losses are more predictable, in order to mitigate the Program's exposure to uncollectible reinsurance, and when considering concentration of risk.
- Maintain multi-year relationships, where possible, with business partners (brokers, underwriters, actuaries, claims administrators, etc.).

- Continue legislative efforts and collaboration to mitigate the expansion of workers' compensation benefits that results in increased costs to the Program and membership.

Budget Policies for the EWC Program include the following, established by the Board of Directors:

Revenues

- Premiums for retained risk and transferred risk are calculated based on participating member's self-insured retention, payroll and loss data. Based on actuarial information and market conditions, the Underwriting and Executive Committees advise on program funding mechanisms including how much risk to self-fund and at what discount rate and confidence level, and how much risk to transfer. Funding includes consideration of the Target Equity Guidelines adopted by the Board. Final funding decisions and premium allocation methodologies are approved by the Board of Directors.
- At the end of each year, members are required to update payroll estimates with actual payroll totals. Adjusting for actual payroll is commonly referred to as the payroll audit. The effect of the payroll audit will increase or decrease premium revenues for transferred and retained risk recognized in the previous year. Premium changes resulting from the prior year's payroll audit are recognized in the current year as additional premiums due to, or from, each member.
- Broker fees are charged to all public entity members. The amount charged is a graduated rate based on premiums. The current broker fee rates are 10% of the first \$100k of premiums, plus 5% of premiums from \$100k to \$1M, and 3% of premiums excess of \$1M.
- The Risk Management Subsidy Program is a voluntary program that was created to offset the direct costs members incur from securing external risk management products and services. Most members choose to contribute at least \$1,000 each year to this Program.
- Investment income is budgeted at an estimated earnings rate determined annually and applied to the average daily balance invested in the PRISM Treasury. The estimated earnings rate is determined by the Finance Committee and approved by the Executive Committee and Board of Directors.
- Members may elect to pay their premium on a monthly or quarterly basis. Finance fees are charged based on the internal borrowing rate and the term of the financing.
- Administration fees are based on the budget for program and general administration costs and subsidies. Any carryover credit from previous years' administration expense will reduce the current budget year's Administration fees charged to the members. Program costs are defined below.

Expenses

- Upon recommendation of the Underwriting and Executive Committees, the Board may annually consider returning available net position to members in the form of member dividends.
- Premium for transferred risk is the expense for insurance purchased based on the risk financing decisions made.
- The provision for claims current and provision for claims prior years' are the actuarial adjustments to claim liabilities.
- The provision for ULAE (Unallocated Loss Adjustment Expenses) is the annual adjustment to the liability for the administrative costs of handling the claims for the life of the claim, and is charged as part of the admin fee.
- Member claims audits are scheduled for each member or Third Party Administrator (TPA) every two years, or as determined by the Claims Review Committee, unless the member has opted out of the claims audit program.
- A claims audit for PRISM's Claims Department is scheduled every two years.
- Each member is entitled to a subsidy of \$2,000 towards the cost of member actuarial studies.
- Other program expenses include program actuarial and consulting costs, legal advice services, labor law and employment practices services, ISO fees, Critical Incident Counseling Services, and any other expenses approved by the various committees.
- There is a \$50,000 contingency budget line item for unforeseen expenses, which is available for use with a two-thirds vote of the Executive Committee.
- The Program has adopted a policy to provide Crisis Incident Management Services. Annually, the Board will determine how to fund for these services.

Transfers

- Transfers out to the General Administration Program are used to pay for PRISM staff and all other administrative costs. These administration costs are allocated to all PRISM programs, based on a three-year average of staff time.
- The administrative costs of the Program are typically set in conjunction with the March Board of Directors meeting as a way to aid members in budgeting by reducing variability in their premiums. Any variance within 2.5% of the set amount and the final administrative costs are adjusted from the Program's Net Position. If the variance falls outside of the 2.5% range, the total budgeted number is brought back to the Board of Directors in June for further action.
- Based on member election, a risk management subsidy of \$1,000 per member, plus any additional amounts elected by members, is transferred to the General Administration Program and added to each member's risk management subsidy account.
- The PRISM Claims System transfer is based on program usage.
- Investment Fees are charged to the programs based on the average daily balance of program funds invested.

General Liability 1

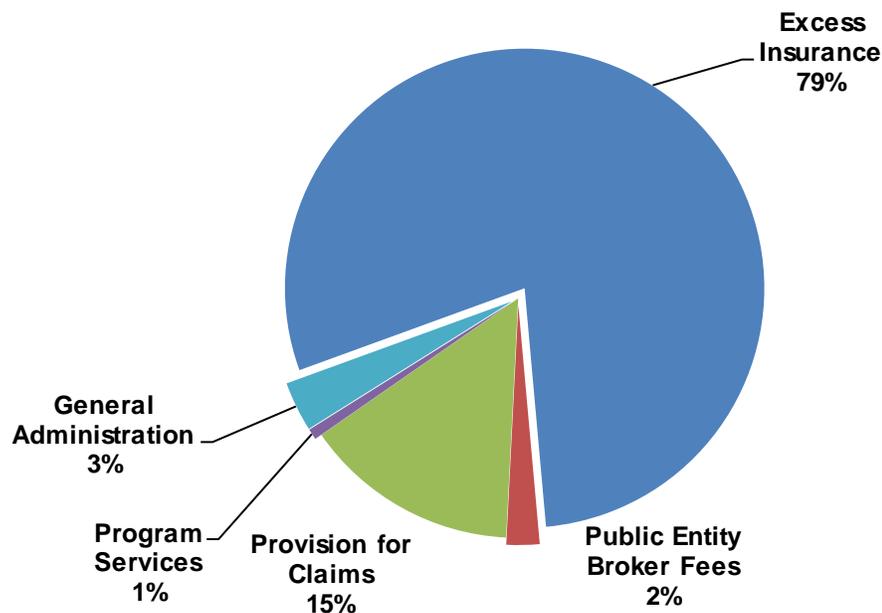

The objective of the General Liability 1 (GL1) Program is to provide members with a long-term, stable and financially strong alternative to traditional insurance. The GL1 Program provides members with the economic benefits of blending self-insurance or pooling, with the purchase of insurance.

Program Revenue Summary:

Number of Members	134
Covered Payroll	\$7.8 Billion
Pool Premium	\$68.4 Million
Insurance	\$62.5 Million
Premium to ARC	\$47.8 Million
Public Entity Broker Fees	\$3.2 Million
Administration and Fees	\$6.3 Million
Loss Prevention Subsidy	\$1,000 per member

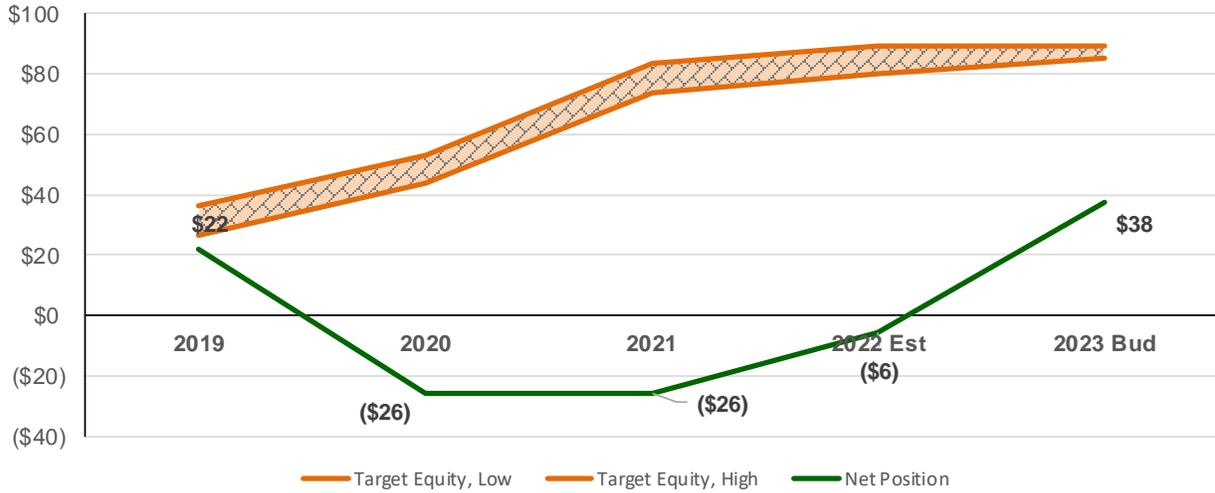

A summary of the GLI Program budget is as follows:

General Liability 1 Program - Expense Summary

The GL1 Program proposed budget would result in an ending net position of \$37.7M at June 30, 2023.

General Liability 1 Net Position (in millions)

The Net Position of the General Liability 1 program is expected to increase in 2022/23 as contributions for retained risk and projected investment income are expected to exceed claims costs for the policy year as estimated at the expected confidence level. Actual claims development will vary from actuarial estimates and may be favorable or adverse.

General Liability 1 (GL1) **Program Budget Policy**

Program Goals for GL1 include the following:

Short Term Goals

- Re-evaluate the risk tolerance and the balance between pooling and transferring risk to the commercial insurance market, with a heavier emphasis on pooling.
- Continue to evaluate and develop service offerings to the members to assist and support their risk management efforts in mitigating/preventing loss.
- Set rates for the upcoming year at an 85% confidence level to increase net assets so that the pool's funding is within the target funding range in three to five years.
- Continue accomplishing action items as outlined on the GL1 Program Strategic Plan approved by the Executive Committee and coordinate the efforts of the Claims Review Committee, Risk Control, and D&A Departments, as needed.
- Continue to increase the use of standardized PRISM GL codes for general liability loss data to allow for better claims analysis and trend identification. Evaluate options to increase the usage of PRISM GL codes among the GL1 membership.
- Evaluate options to increase the adoption of monthly data reporting among the GL1 Program membership.
- Continue to roll out the new data analytics platform to allow for benchmarking of claims data, with additional members being brought onboard and new functionality being provided in 2022/23.
- Use multi-year underwriting matrices, where possible, to help stabilize renewal pricing from underwriters.
- Continue to monitor the long-term discount assumption, and make conservative adjustments, as needed.
- Continue to evaluate transfer of risk opportunities in the PRISM captive.
- Market the Program nationwide to improve the diversity of the Program exposure.
- Analyze GL1 loss data and evaluate creating different rating groups within the GL1 allocation.

Long Term Goals

- Maintain funding levels in accordance with the Target Funding Guidelines.
- Maintain an equitable distribution of costs amongst the members through a premium allocation process with appropriate consideration for exposure and loss experience within the pool layer and excess layers.
- Maintain stable pricing year-over-year, striving not to exceed a 10% variance.
- Maintain multi-year relationships, where possible, with business partners

(brokers, underwriters, actuaries, claims administrators, etc.).

Budget Policies for the GL1 Program include the following established by the Board of Directors:

Revenues

- Premiums for retained risk and transferred risk are calculated based on participating member's self-insured retention, exposure, and loss data. Based on actuarial information and market conditions, the Underwriting and Executive Committees advise on program funding mechanisms including how much risk to self-fund, and at what discount rate and confidence level, and how much risk to transfer. Funding includes consideration of the Target Equity Policy adopted by the Board. Final funding decisions and premium allocation methodologies are approved by the Board of Directors.
- Premium in the GL1 Program is not subject to adjustment based on actual payroll.
- Broker fees are charged to all public entity members. The amount charged is a graduated rate based on premiums. The current broker fee rates are 10% of the first \$100k of premiums, plus 5% of premiums from \$100k to \$1M, and 3% of premiums excess of \$1M. Broker fees or commissions may also be charged to members for reinsurance placements and are considered part of the cost and premium for transferred risk.
- The Risk Management Subsidy Program is a voluntary program that was created to offset the direct costs members incur from securing external risk management products and services. Most members choose to contribute at least \$1,000 each year to this program.
- Investment income is budgeted at an estimated earnings rate determined annually and applied to the average daily balance invested in the PRISM Treasury. The estimated earnings rate is determined by the Finance Committee, and approved by the Executive Committee and Board of Directors.
- Members may elect to pay their premium on a monthly or quarterly basis. Finance fees are charged based on the internal borrowing rate and the term of the financing. Administration fees are based on the budget for program and general administration costs and subsidies. Any carryover credit from previous years' administration expense will flow to the Program's Net Position. Program costs are defined below.

Expenses

- Upon recommendation of the Underwriting and Executive Committees, the Board may annually consider returning available net position to members in the form of member dividends.
- Premium for Transferred Risk is the expense for insurance purchased based on the risk financing decisions made.

- The provisions for claims, current year, and provision for claims prior years' are the actuarial adjustments to claim liabilities.
- The provision for ULAE (Unallocated Loss Adjustment Expenses) is the annual adjustment to the liability for the administrative costs of handling the claims for the life of the claim and is charged as part of the admin fee.
- Member claims audits are scheduled for each member or Third Party Administrator (TPA), every two years, or as determined by the Claims Review Committee, unless the member opts out of the claims audit program.
- A claims audit for the PRISM's Claims Department is scheduled every two years.
- Each member is entitled to subsidy of \$2,000 towards the cost of member actuarial studies.
- Other program expenses include program actuarial and consulting costs, legal expenses, ISO fees, and any other expenses approved by the various committees.
- There is a \$50,000 contingency budget line item for unforeseen expenses, which is available for use with a two-thirds vote of the Executive Committee.
- The Program has adopted a policy to provide Crisis Incident Management Services. Annually, the Board will determine how to fund for these services.

Transfers

- Transfers out to the General Administration Program are used to pay for the PRISM staff and all other administrative costs. These administration costs are allocated to all PRISM programs based on a three-year average of staff time.
- The administrative costs of the Program are typically set in conjunction with the March Board of Directors meeting as a way to aid members in budgeting by reducing variability in their premiums. Any variance within 2.5% of the set amount and the final administrative costs are adjusted from the Program's Net Position. If the variance falls outside of the 2.5% range, the total budgeted number is brought back to the Board of Directors in June for further action.
- Based on member election, a risk management subsidy of \$1,000 per member, plus any additional amounts elected by members, is transferred to the General Administration Program and added to each member's risk management subsidy account.
- The PRISM Claim system transfer is based on program usage.
- Investment Fees are charged to the program based on the average daily balance of program funds invested.

General Liability 2

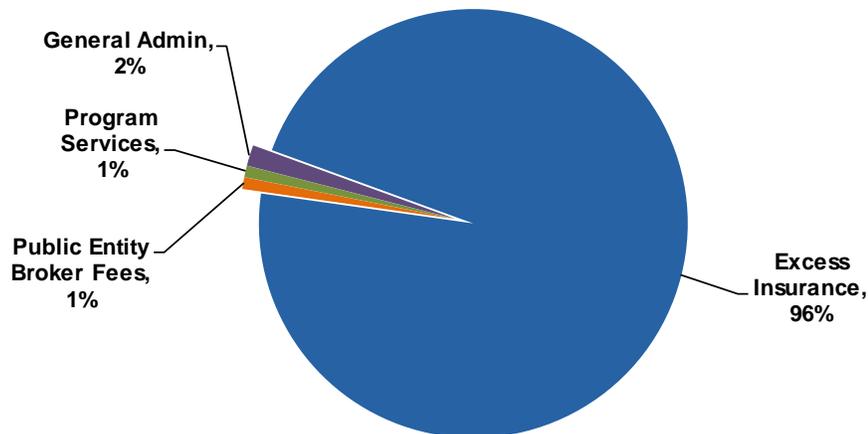

The objective of the General Liability 2 (GL2) Program is to provide members who can afford a high self-insured retention an affordable excess liability program with limited pool exposure, and insured coverage when available.

Program Revenue Summary:

Number of Members	25
Insurance	\$168 Million
Public Entity Broker Fees	\$1.5 Million
Administration and Fees	\$4.3 Million

A summary of the General Liability 2 Program budget is as follows:

General Liability Program 2 - Expense Summary

General Liability 2 (GL2) **Program Budget Policy**

Program Goals for the GL2 Program include the following:

Short Term Goals

- Increase service offerings to the members.
- Eliminate aggregate coverage limits where possible.
- Use multi-year underwriting matrices, wherever possible, to help ensure stable renewal pricing from underwriters.
- Evaluate different risk financing strategies in challenging renewal times; such as evaluating pooling/risk sharing, evaluate SIR changes, and assess different corridor retentions, IMCDs, and layering strategies.
- Establish a policy to hold members accountable to meeting monthly loss data reporting requirements.
- Create a loss data quality dashboard.
- Annually consider amendments to the MOC to address areas in which clarification is helpful in an effort to avoid coverage questions in the future.
- Establish Target Funding Guidelines to assist the Committee in making program funding decisions on an annual basis
- Continue to evaluate transfer of risk opportunities to the PRISM Captive.

Long Term Goals

- Maintain an equitable, market-based premium allocation with appropriate consideration given to exposure and loss experience. A market based allocation is designed to avoid adverse selection by the members.
- Maintain stable pricing year-over-year, striving to not exceed a 10% variance overall, or 15% variance by member.
- Maintain multi-year relationships, where possible, with business partners (brokers, underwriters).
- Expand program to new members, which may include pools or individual members from other states.

Budget Policies for the GL2 Program include the following:

Revenues

- Based on market conditions, coverage for the Program is provided by insurance, or a combination of insurance and an aggregate pool or Mega Fund, individual member corridor deductibles (IMCDs) when appropriate, which provides coverage between the member's SIR and the insured layer.
- The allocation of premiums between participating members is approved annually by the GL2 Committee.

- Broker fees are charged to all public entity members. The amount charged is based on the broker contract and is a graduated rate based on premiums. The current broker fee rates are 10% of the first \$100k of premiums, plus 5% of premiums from \$100k - \$1M, and plus 3% of premiums excess of \$1M. Currently the broker is refunding a portion of broker fees to the Program to offset program expenses.
- Investment income is budgeted at an estimated earnings rate determined annually and applied to the average daily balance invested in the PRISM Treasury. The estimated earnings rate is determined by the Finance Committee and approved by the Executive Committee and Board of Directors.
- Administration fees are based on the budget for program and general administration costs and subsidies. Any carryover credit from previous years' administration expense could flow to the program's net position, on committee's discretion. Program costs are defined below.
The Risk Management Subsidy Program was created to offset the direct costs members incur from securing external risk management products and services. Unless a member opts out, the Risk Management Subsidy is \$1,000 each year.

Expenses

- GL2 premiums for transferred risk include the cost of insurance for claims in excess of each member's SIRs and the GL2 Pool or Mega Fund. Policy limits are determined annually by the GL2 Committee. Members can obtain optional excess insurance through the Miscellaneous Programs that extend coverage limits.
- The provision for claims provides for claims costs within any corridor deductible or Mega Fund layer.
- The provision for Unallocated Loss Adjustment Expenses (ULAE) accrues the costs not directly associated with specific claims, but related to claims administration and settlement processes for the remaining life of the claims. ULAE includes salaries and other internal costs of the PRISM's claims department.
- The legal services line item provides for coverage opinions and other services provided to the GL2 Committee.
- Claims audits will be done every two years and paid for through the premium allocation.
- A claims audit for the PRISM's Claims Department is scheduled every two years.
- Each member is entitled to a subsidy of \$2,000 towards the cost of member actuarial studies.
- Other program expenses include consulting costs, legal expenses, ISO fees and any other expenses approved by the GL2 Committee.
- An expense budget of \$50,000 has been delegated to the GL2 Committee for any unforeseen budget expenses. The GL2 Committee may allocate these funds to any expense line item with a two-thirds vote of the Committee.

- The program has adopted a policy to provide Crisis Incident Management Services. Annually, the GL2 Committee will determine how to fund for these services.
- Deficits in GL2 program net cash and investment balance occasionally result from delays in payments from reinsurance carriers and others. In those instances, the cash flow needs of the program are met by other PRISM programs via intercompany borrowing. Interest is paid on intercompany borrowing in accordance with the annually-adopted internal borrowing rate. This interest expense will be covered from the program's net position.

Transfers

- Transfers out to the General Administration Program are used to pay for PRISM staff and all other administrative costs. These administration costs are allocated to all PRISM programs based on a three-year average of staff time.
- Based on member election, a risk management subsidy of \$1,000 per member, plus any additional amounts elected by members, is transferred to the General Administration Program and added to each member's risk management subsidy account balance.
- The Claims System transfer was established based on program usage.
- Investment Fees are charged on the average daily balance of program funds invested.

Property

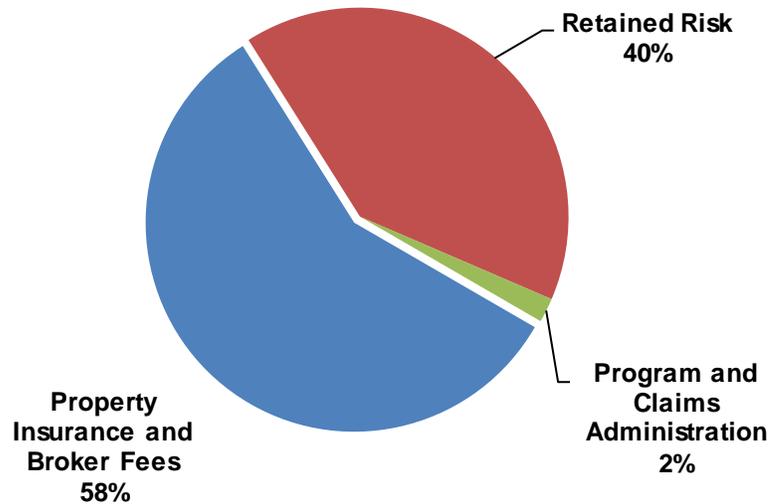

The objective of the Property Program is to provide a broad range of all-risk property coverage to members, including flood and earthquake. Members' property is divided into groups known as "towers". All but one tower offers up to \$600M of property coverage.

Program Revenue Summary:

Number of Members	118
Member deductibles	\$5,000 to \$100,000
Insured Values	\$94.5 Billion
Insurance	\$103 Million
Pool Premium	\$75.4 Million
Administration and Fees	\$1.2 Million

A summary of the Property Program budget is as follows:

Property Program - Expense Summary

Net Position in the Property Program is budgeted to increase by \$1.8M. As of March 31, 2022, the Program is now self-insured for the first \$10M of each tower. The program continues to maintain broad coverage. EQ rooftop risk in \$25M excess of \$340M was retained in FY 2021/22 but transferred in FY 2022/23.

Property Program Budget Policy

Program Goals for the Property Program include the following:

Short-term Goals

- Increase service offerings to the members.
- Seek out new markets and annually evaluate risk retention options.
- Continue to implement the Committee's policy to address frequency and severity of losses at vacant buildings.
- Continue to evaluate the quality of claims services.
- Continue to evaluate transfer of risk opportunities in PRISM's Captive.
- Evaluate adding public entity members to County towers or developing new public entity towers to address the continued growth of the program.

Long-term Goals

- Maintain beneficial long-term relationships with insurance markets.
- Maintain program stability through strategies of broad spread of risk and market-based premium allocation.
- Maintain superior quality services in claims, underwriting and loss control.
- .
- Continue to evaluate coverage and structure enhancements.
- Expand the program to out of state participants who will increase the program diversity and fit with the program risk appetite.

Budget Policies for the Property Program include the following:

Revenues

- Premiums for retained and transferred risk are allocated based on each member's insured values, exposures, deductibles and coverage elections. Any difference between the collected premium for retained and transferred risk and premium expenses paid, is retained as a Property Program Stabilization Fund.
- Investment income is budgeted at an estimated earnings rate determined annually and applied to the average daily balance invested in PRISM's Treasury. The estimated earnings rate is determined by the Finance Committee and approved by the Executive Committee and Board of Directors.
- Ceding commissions, refunded by the primary carrier will be added to the program net position. .

- Any unspent money from the funding of the Aggregate Deductible Pool and/or other retained layers will flow to the program net position.
- Members may elect to pay their premium on a monthly or quarterly basis. Member finance fees are charged based on the internal borrowing rate and the term of the financing.
- Administration fees are based on the budget for program and general administration costs and subsidies. Any carryover credit from previous years' administration expense will flow to the program net position. Program costs are defined below.

Expenses

- Property insurance premiums include the cost of primary and excess insurance. The primary includes the annual primary layer premium and a provision for claim payments within the aggregate pool.
- Other program expenses include consulting costs, legal expenses, property appraisal services, and any other expenses approved by the Property Committee.
- The Risk Management Subsidy Program was created to offset the direct costs members incur from securing external risk management products and services. Unless a member opts out, the Risk Management Subsidy is \$1,000 per year.
- PRISM's premium billing to members is based on the fiscal year of July 1st through June 30th. The insurance premiums are for a policy period of March 31st through March 31st, and premiums are due to the carriers within 30 days. This timing difference requires PRISM to finance a portion of the cost of insurance. PRISM internally borrows funds from the treasury to pay these premiums until member billings are collected in July. The finance expenses are the costs to the PRISM Treasury to internally borrow funds for the Property Program. An expense is recognized each fiscal quarter based on the average daily balance of the funds borrowed times the internal borrowing rate approved by the Board of Directors each March.
- The Risk Management Services line item of \$350,000 is available for services approved by the Property Committee.
- The Appraisal Services line item is for the Program's portion of expenses associated with appraisal of buildings valued between \$250,000-\$1,000,000. Since the appraisal policy was amended to extend the frequency of appraisals from 5 to 10 years, the Program's financial responsibility is significantly reduced starting in the 2017/18 year and will increase for additional appraisals again in the 2022/23 year.
- An expense budget of \$25,000 has been delegated to the Property Committee. The Committee may allocate these funds to any expense line item with a two-thirds vote of the Committee.

- The Program has adopted a policy to provide Crisis Incident Management Services. Annually, the Property Committee will determine how to fund for these services.

Transfers

- Transfers out to the General Administration Program are used to pay for PRISM staff and all other administrative costs. These administration costs are allocated to all PRISM's programs based on a three-year average of staff time.
- Based on member election, a risk management subsidy of \$1,000 per member, plus any additional amounts elected by members, is transferred to the General Administration Program and added to each member's risk management subsidy account.
- Investment fees are charged on the average daily balance of program funds invested.

Medical Malpractice

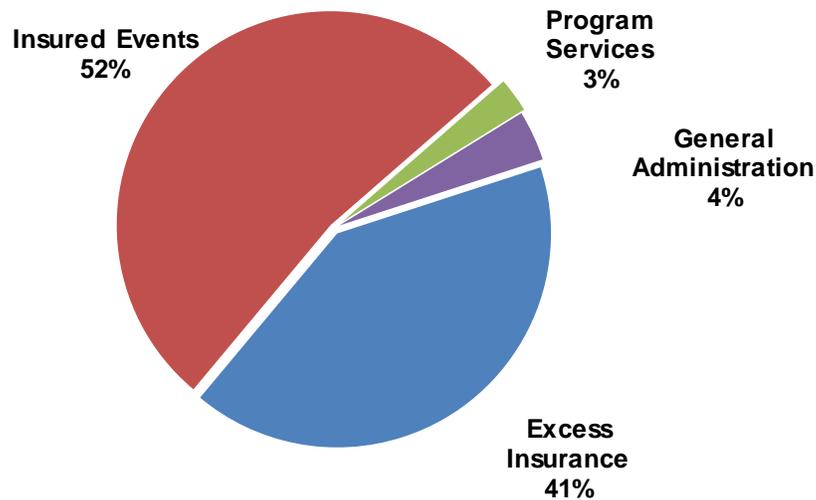

The objective of the Medical Malpractice Program is to provide members with the broadest possible General Liability and hospital or medical facilities professional liability coverage and limits at the lowest rates available. The Medical Malpractice Program provides members with the economic benefits of blending self-insurance or pooling, with the purchase of insurance.

Program Revenue Summary:

Number of Members	51
Pool Premium	\$20.3 Million
Insurance	\$8.9 Million
Premium to ARC	\$1.9 Million
Administration and Fees	\$1.4 Million
Loss Prevention Subsidy	\$1,000 per member

A summary of the Medical Malpractice Program budget is as follows:

Medical Malpractice Program - Expense Summary

The Medical Malpractice Program budgeted an increase in its Net Position of 85% in 2022/23. Rates for the program are developed such that contributions for retained risk plus investment income are budgeted to exceed claims costs. Actual claims development will vary from current estimates and may be favorable or adverse.

Medical Malpractice Program Budget Policy

Program Goals for the Medical Malpractice Program include the following:

Short Term Goals

- Increase service offerings to the members.
- Continue to monitor the activity of jail/civil rights claims covered by the Program.
- Staff and George Hills/RMS to continue working with members and CFMG to review the coverage limits provided to members and research and provide information to members regarding other options for jail medical services.
- Expand training opportunities to include the addition of web and recorded training sessions.
- Work toward all members reporting data monthly to for more consistent reporting, better data quality, and the option to provide data to markets earlier for July 1 renewal.
- Continue to consider risk transfer opportunities to the PRISM Captive.

Long Term Goals

- Maintain stable pricing year over year, striving not to exceed a 10% variance overall, or 15% variance by member.
- Maintain multi-year relationships with carriers, brokers and underwriters where possible.
- Maintain an equitable distribution of costs among the members and Program 1 and Program 2, through a premium allocation process with appropriate consideration for exposure and loss experience within the pool and excess layers.
- Monitor the claims discount assumption, compared to the projected investment earnings rate

Budget Policies for the Medical Malpractice Program include the following:

Revenues

- Premiums for retained risk and transferred risk are actuarially determined based on each member's exposure, claims experience and SIR or deductible. Each year the Medical Malpractice Committee determines the appropriate funding level and discount rate.
- Broker fees are charged to all public entity members. The amount charged is a graduated rate based on premiums. The current broker fee rates are 10% of the first \$100k of premiums, plus 5% of premiums from \$100k - \$1M, and plus 3% of premiums excess of \$1M. Broker fees or commissions may also be charged to

members for reinsurance placements and are considered part of the cost and premium for transferred risk.

- The Risk Management Subsidy Program was created to offset the direct costs members incur from securing external risk management products and services. Unless a member opts out, the Risk Management Subsidy is \$1,000 each year.
- Investment income is budgeted at an estimated earnings rate determined annually and applied to the average daily balance invested in the PRISM Treasury. The estimated earnings rate is determined by the Finance Committee and approved by the Executive Committee and Board of Directors.
- Claims administration fees are based on negotiated fee contracts approved by the Committee. Claims administration fees are allocated within each Program separately based on each members retained and transferred risk premiums.
- Administration fees are based on the budget for program and general administration costs and subsidies. Any carryover credit from previous years' administration expense will reduce the current budget year's Administration fees charged to the members. Program costs are defined below.

Expenses

- The Medical Malpractice Committee annually considers returning available monies resulting from net position to members in the form of member dividends.
- Medical Malpractice premiums for transferred risk include the cost of reinsurance and or excess insurance.
- The Provision for Claims (current), and the Provision for Claims (prior years), are the actuarial adjustments to claim liabilities.
- The Provision for ULAE (Unallocated Loss Adjustment Expenses) is the annual adjustment to the liability for the administrative costs of handling the claims for the life of the claim.
- Program and member claims audits are scheduled every two (2) years for Program 1 members and every three (3) years for Program 2 members, or as determined by the Medical Malpractice Committee.
- Each Program 1 member is entitled to a subsidy of \$2k towards the cost of member actuarial studies.
- The Medical Malpractice Committee provides a loss prevention seminar. The Committee will reimburse the travel expenses for up to three (3) representatives from each member.
- Other program expenses include legal expenses and any other expenses approved by the Medical Malpractice Committee.
- An expense budget of \$25k has been delegated to the Medical Malpractice Committee for any unforeseen budget expenses. The Medical Malpractice

Adopted: June 9, 2010
Amended: March 25, 2021
Last Amended: February 15, 2022

Committee may allocate these funds to any expense line item with a two-thirds vote of the Committee.

- The Program has adopted a policy to provide Crisis Incident Management Services. Annually, the Medical Malpractice Committee will determine how to fund for these services.

Transfers

- Transfers out to the general administration program are used to pay for PRISM staff and all other administrative costs. These administration costs are allocated to all PRISM programs based on a three-year average of staff time.
- Investment fees are charged based on the average daily balance of program funds.
- Based on member election, a risk management subsidy of \$1k per member, plus any additional amounts elected by members, is transferred to the general administration program and added to each member's risk management subsidy account balance.
- The Claims System transfer is based on program usage.

Master Rolling Owner Controlled Insurance Program

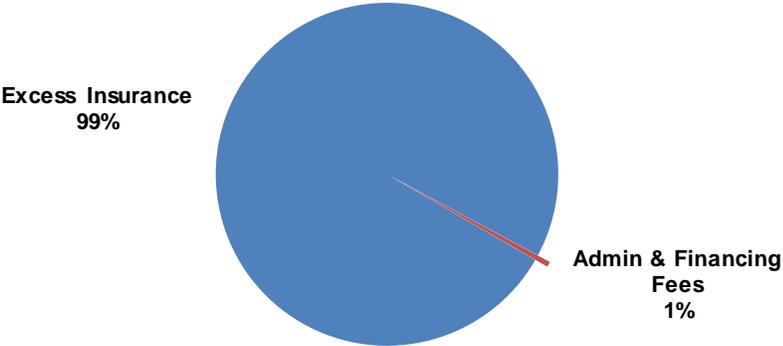

The Master Rolling Owner Controlled Insurance Program (MROCIP) enables members to purchase workers compensation and general liability coverage for all eligible parties working on their construction projects. The program incepted in January 2013, and currently has eight projects either approved or in progress.

Program Revenue Summary:

Insurance	\$10 Million
PRISM Administration Fees	\$140 Thousand

A summary of the MROCIP Program budget is as follows:

**Master Rolling Owner Controlled Insurance Program
Expense Summary**

As budgeted, collections for Administration Fees are greater than the related expenses, resulting in an increase in Net Position of \$90k.

Master Rolling Owner Controlled Insurance Program (MR OCIP) Program Budget Policy

Program Goals for MR OCIP include the following:

Short-Term Goals

- Increase service offerings to the members.
- Communicate information about the Program to members.
- Continue to expand member participation in the Program, with a target towards county jails and schools.
- Evaluate offering a “liability-only” option.
- Evaluate expanding the program out of state by offering stand-alone placements in the short-term.

Long-Term Goals

- Maintain beneficial long-term relationships with insurance markets.
- Maintain program stability through strategies of broad spread of risk and market-based premium allocation.
- Maintain superior quality services in claims, underwriting and loss control.
- Consider future opportunities for outside of California prospects.

Budget Policies for the MR OCIP include the following:

Revenues and Expenses

- Premiums for Retained and Transferred Risk, and other program charges are calculated based on each project’s construction values, payrolls, exposures, and coverage elections.
- Program finance fees are based on the internal borrowing rate.
- Administration fees are .03% of the Estimated Construction Project Value.
- Transfers out to the General Administration Program are used to pay for PRISM staff and all other administrative costs. These administration costs are allocated to all PRISM programs based on a 3-year average of staff time.
- Investment fees are charged on the average daily balance of program funds invested.

PRISMHealth

The PRISMHealth Program was formed to provide PRISM members with a more cost-efficient alternative to their current health and benefit plans.

The PRISMHealth Program creates value and long-term stability for members by securing the lowest fixed cost plan components and combining employers with similar risk profiles in a financially stable pool. In addition, the Program offers employers the flexibility to match current plan design and product offerings at lower rates for both active and retired employees. The Program has consistently outperformed the marketplace since its inception and competes effectively with standalone plans, as well as CalPERS.

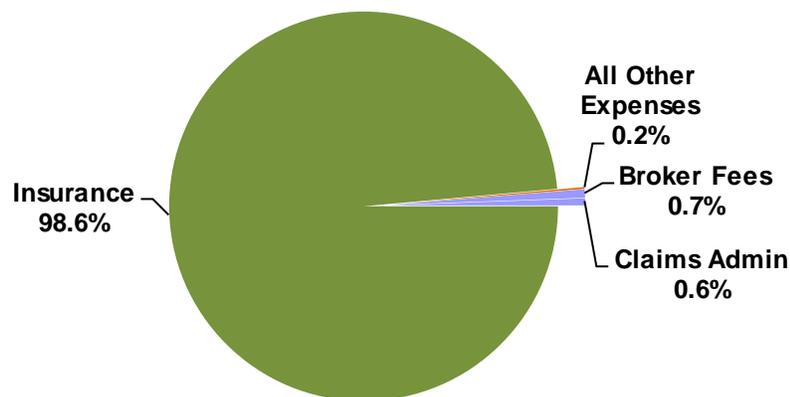

Program Revenue Summary:

Number of Members	45
Insurance	\$592.2 Million
Eligibility Fees	\$3.6 Million
Claims Admin Fees	\$23.7 Million
Broker Fees	\$4.3 Million
PRISM Admin & Fees	\$1.2 Million

A summary of the PRISMHealth Program budget is as follows:

As budgeted, collections for Administration Fees are greater than the related expenses, resulting in an increase in Net Position of \$300k.

PRISMHealth Program Expense Summary

PRISMHealth Program Budget Policy

Program Goals for the PRISMHealth Program include the following:

- **Short Term Goals** Increase Program communication of products and services
- Increase overall member participation in committee meetings
- Monitor carrier and vendor performance
- Continue to present health care cost containment strategies for committee consideration
- Pharmacy Benefit Manager Assessment
- Conduct more online Healthcare related webinars
- Carrum Health Service Review
- Leverage Data Analytics and Reporting
- Behavioral Health Service Education/Review
- Evaluate aggregate claim risk assessment

Long Term Goals

- Increase service offerings to members
- Maintain appropriate funding levels and stable pricing within the Program
- Evaluate lower cost/lower benefit plan design options
- Increase member specific, benefits related information on the PRISM website
- Evaluate Dependent Audit options
- Evaluate Network Optimization
- Value proposition for “jumbo” prospects

Budget Policies for the PRISMHealth Program include the following:

Revenues

- The transferred risk premiums for PRISMHealth insurance is based on the benefit level selected by each member and their actual claims experience. A per employee, per month rate is established for each member.
- PRISMHealth Committee has established additional services and associated rates necessary to manage the PRISMHealth Program. These services pertain to the administration of the PRISMHealth Program. The services and rates are outlined below and included in the following addendum, they will also be updated annually by service and the amount of the fixed cost.
 - Claim administration and eligibility fees are based on a per employee, per month rate. The rates may vary based on group size and/or products purchased by the member.

- Broker fees are based on a per employee, per month rate with the exception of pharmacy, which is based on a per member, per month rate. The fee paid by the member varies based on the size of each member.
- TPA and vendor fees are based on a per employee, per month rate.
- PRISM Administration rates are based on a per employee, per month rate.

Expenses

- The health insurance premiums transferred to the PRISMHealth Program partner, Self Insured Schools of California (SISC), equals the per employee, per month premium referred to in the section below. Risk for member healthcare cost have been transferred to SISC.
- Other PRISMHealth Program revenues that pass through as an expense include:
 - Claims Administration and TPA Fees
 - Broker Fee Expense
 - Eligibility Administration Expense (fixed costs are outlined on page 3)
- The PRISMHealth Symposium expense provides for the operating cost of seminars conducted to update members on current health industry issues. The cost includes reimbursements of travel costs incurred by members to attend the seminar.
- The PRISMHealth Program workshops/webinars are designed to train and update program members on services available through the PRISMHealth Program.
- Other program administration costs include legal expenses and actuary expenses. An expense budget of \$25,000 has been delegated to the PRISMHealth Committee for any unforeseen budget expenses. The PRISMHealth Committee may allocate these funds to any expense line item with a two-thirds vote of the Committee.

Transfers

- Transfers out to the general administration program are used to pay for PRISM staff and all other administrative costs. These administration costs are allocated to all PRISM programs based on a three-year average of staff time.
- Investment Fees are charged on the average daily balance of program funds invested.

Dental

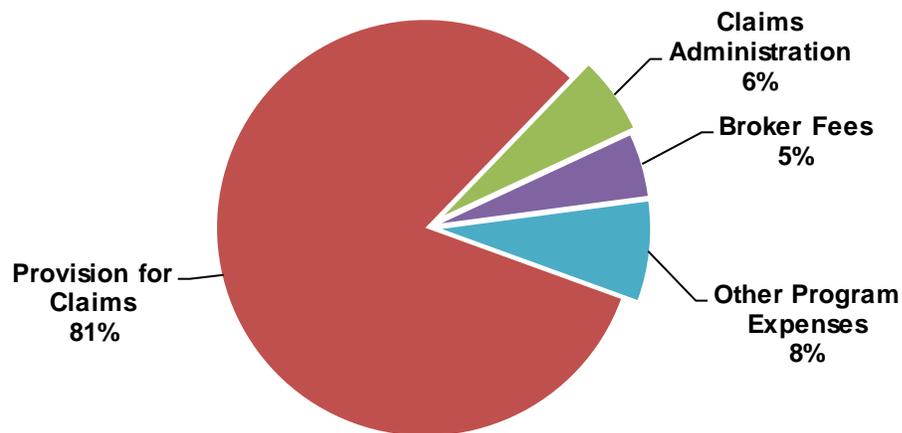

The Dental Program was created to provide members with comprehensive dental coverage and flexible benefit plan designs at the lowest possible rates. As a joint purchasing program, PRISM is able to leverage the size of its pooled participants to achieve volume pricing that is significantly lower than what individual public agencies could qualify for on their own.

Program Revenue Summary:

Number of Members	174
Pool Premium	\$41.3 Million
Pass Thru Premium	\$550 Thousand
Eligibility Fees	\$605 Thousand
Broker Fees	\$2.3 Million

A summary of the Dental Program budget is as follows:

Dental Program - Expense Summary

Two million is budgeted for return to members via dividend in 2022/23, resulting in a planned decrease of 24% in the program's net position.

PRISM Dental **Program Budget Policy**

Program Goals for the PRISM Dental Program include the following:

Short Term Goals

- Monitor the results of the approved reduction in program equity
- Annually review trend levels for Program
- Enhance program information available on the PRISM website
- Evaluate impact of COVID-19
- Work with Delta Dental to develop PRISM Dental website for members and employees
- Delta Dental Network/Provider Analysis
- Market review for program competitiveness

Long Term Goals

- Maintain appropriate funding levels and stable pricing within the Program
- Maintain multi-year relationships with carriers and vendors
- Increase program participation
- Promote and communicate Member Services available to Dental members
- Review future capabilities of BCC Administration – CalPERS Connectivity

Budget Policies for the PRISM Dental include the following:

Revenues

- The retained risk premiums for the PRISM's Dental Program are based on the benefit level selected by each member, and the member's actual claims experience. A per month, per employee rate is established for each member.
- The PRISM Employee Benefits Committee has established other rates necessary to manage the PRISM Dental Program. These rates include the following:
 - Program TPA eligibility fees are based on a per employee, per month rate.
 - Broker fees can be based on a per employee, per month rate or a compensation percentage. The rate varies based on the size and complexity of each member.

Investment income is budgeted at an estimated earnings rate determined annually and applied to the average daily balance invested in the PRISM Treasury.

Expenses

- Dental claim expenses equals the actual dental expenses paid for program members. The expense includes an accrual for outstanding claims incurred, and an allowance for claims incurred but not reported (IBNR).
- PRISM Dental Program revenues that pass through as a like expense include:
 - Claims Administration Fees
 - Third Party Administration Fees
 - Broker Fees
 - Eligibility administration expense
 - DHMO premiums
- Other program administration costs include legal expenses and actuary expenses.

Transfers

- Transfers out to the General Administration budget are used to pay for the PRISM's staff, loss prevention, and all other administrative costs. The investment income earned from dental premiums pay for the general administration cost of the Program. The Employee Benefits Committee established this procedure to operate the Dental Program without any direct administration fees.

Miscellaneous Programs

PRISM offers various other insurance coverage to public agencies. These services include the following employee benefits programs:

- Life and Disability programs
- Employee Assistance programs

PRISM's new platform offers consolidated billing with online eligibility and enrollment.

Other coverage include:

- Aviation
- Master Crime
- Catastrophic Inmate Medical
- Course of Construction
- Equipment Maintenance Management Program
- Optional Excess Liability
- Cyber Liability
- Pollution Liability
- Special Events
- Watercraft

PRISM offers these coverages to members through a group purchase program at competitive rates with no administrative fees as part of the program costs.

Miscellaneous Programs Program Budget Policy

A. Employee Benefits Miscellaneous Programs

Program Goals for the Employee Benefits Misc. Programs include the following:

Short Term Goals

- Increase overall participation in Misc. Programs
- Increase communication on available program features
- Monitor EAP service performance and provider network
- Assess and build on current EAP/Behavioral Health offerings
- Promote Paid Family Leave and Group Voluntary Benefits

Long Term Goals

- Maintain stable and competitive pricing
- Obtain multi-year agreements where ever possible
- Review future capabilities of BCC and the connectivity of PRISM ancillary and non-PRISM Healthcare programs

Budget Policies for the Employee Benefits Misc. Programs include the following:

Revenues

- In addition to the nine major coverage programs, the PRISM provides group purchase insurance programs to offer members protection from other various exposures. These programs include:
 - Life/Accidental Death & Dismemberment (AD&D)
 - Long Term Disability (LTD)
 - Short Term Disability (STD)
 - Paid Family Leave
 - Group Voluntary Benefits
 - Vision
 - Employee Assistance Plan (EAP)
- The transferred risk premiums for Life, Accidental Death and Dismemberment (AD&D) Long Term Disability (LTD), and Short Term Disability (STD) are based on the benefit level selected by each member.
 - Life and AD&D insurance rates are based on the volume levels selected by each member.
 - LTD rates are based on the benefit level selected by each member. The rate is applied to the monthly payroll reported by each member.

- Short-Term Disability rates are also based on the benefit level selected by each member and is applied to the monthly payroll.
- Paid Family Leave and Group Voluntary Benefits are voluntary programs whose premium are paid via employee payroll deduction by the entity.
- Vision rates are based on the benefit level selected by each member. Benefit levels determine the schedule of benefits provided and the covered services.
- Employee Assistance Program (EAP) rates are based on the benefit level selected by each member. Benefit levels determine the benefits provided per incident, per employee. EAP premiums are billed quarterly, in advance by the PRISM.
- Investment income is budgeted at an estimated earnings rate determined annually and applied to the average daily balance invested in the PRISM Treasury. The estimated earnings rate is determined by the Finance Committee and approved by the Executive Committee and Board of Directors. The estimated earnings rate is also the rate established by the Inter-Fund Borrowing Policy, wherein a Program can temporarily borrow funds from the PRISM Treasury.

Expenses

- The Life, AD&D, LTD, STD and Vision premium payments are pass through to the insurance companies in which the programs contract as approved by the Employee Benefits Committee.
- EAP premium payments also pass through to the insurance companies in which the Program contracts, as approved by the Employee Benefits Committee. Premium expense invoices are computed quarterly, based on each members set rate for their benefit level and the reported number of employees eligible for the EAP.

Transfers

- Transfers out to the general administration program are used to pay for the PRISM staff, and all other administrative costs. The investment income earned from the Life, AD&D, LTD, STD and Vision Programs pay for the general administration cost of the Program. Investment income from stabilization funds used for general administration fees is limited to a minimum of \$5k and a maximum of \$10k per stabilization account.
- Transfers out for EAP administration fees is paid from investment income earned from the timing differences created by billing members quarterly, and paying the insurance companies monthly. The Employee Benefits Committee established this procedure to operate the EAP without any direct administration fees.
- Investment Fees are charged on the average daily balance of program funds invested.

B. Property and Casualty Miscellaneous Programs

Program Goals for the Property and Casualty Misc. Programs include the following:

Short Term Goals

- Ensure an efficient system is in place for premium billings
- Enhance program information provided on the website
- Obtain and review program loss experience on a quarterly basis
- Evaluate ways to improve the equitability of the cyber allocation based on how the allocation accounts for exposure or member efforts to mitigate cyber vulnerabilities

Long Term Goals

- Maintain stable and competitive pricing from year to year
- Continue to evaluate new opportunities to develop coverage programs that meet members' changing risk-management needs
- Explore establishing aggregated pooling layers where it makes sense
- Maintain long-term relationships with the coverage markets
- Obtain multi-year agreements where ever possible

Revenues

- In addition to the ten major coverage programs, the PRISM provides group purchase insurance programs to offer members protection from other various exposures. These programs include:
 - Aviation
 - Bond/Crime
 - Catastrophic Inmate Medical
 - Course of Construction
 - Equipment Maintenance Management Program
 - Optional Excess Liability
 - Cyber Liability
 - Pollution Liability
 - Special Events
 - Vendor Contractors'
 - Watercraft
 - Fiduciary Liability

Expenses

- The revenue from the group purchase of the Miscellaneous Programs listed above pass through as premium expense.

Transfers

- Transfers out to the General Administration Program are used to pay for PRISM staff and all other administrative costs. Any investment income from any timing differences for the collection of premiums and the timely payment of premiums expenses is transferred to the general administration fund.

Other Miscellaneous programs are directed by the Executive Committee.

PRISM Affiliate Risk Captive (PRISM ARC)

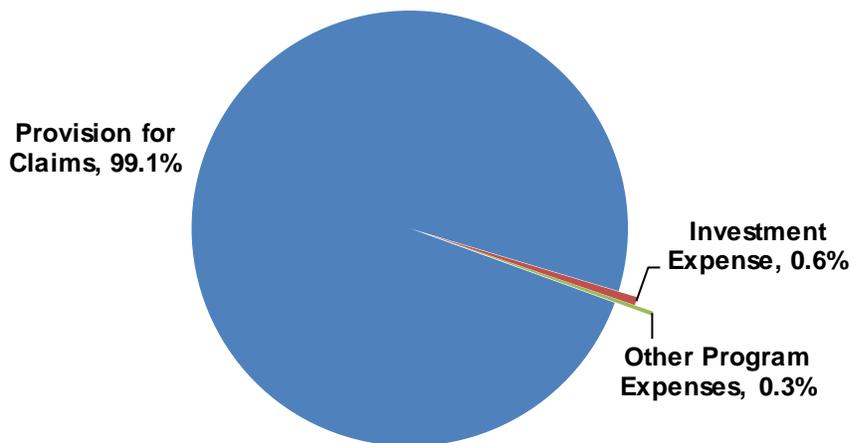

PRISM ARC is a captive insurance company formed by PRISM and is accounted for as a blended component unit. The Captive covers fixed corridors of PRISM as follows:

Program Revenue Summary:

Primary Workers' Comp	\$14.9 Million
Excess Workers' Comp	\$71.3 Million
General Liability 1	\$47.8 Million
Med Mal	\$1.9 Million

A summary of the Captive’s budget is as follows:

ARC - Expense Summary

The Net Position of PRISM ARC is budgeted to increase from an estimated \$5.1 million at June 30, 2022 to \$27.6 million at the end of the 2022/23 fiscal year. This 444% increase is expected as revenues for transferred risk are established at a higher confidence level while the related expenses are budgeted at the expected confidence level.

General Administration

The general administration fund is used to pay the day to day operations of PRISM. These expenses include staff salaries and benefits, staff travel and support, PRISM meeting expenses, services and supplies, loss prevention, and depreciation of equipment and software. The allocation of general administration expenses is as follows.

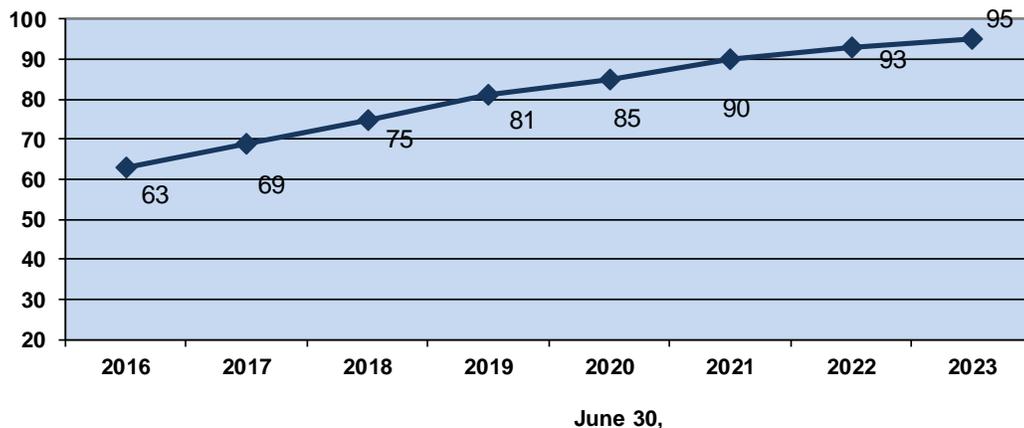

General Administration Budget - Expense Summary

Highlights of the general administration budget are as follows:

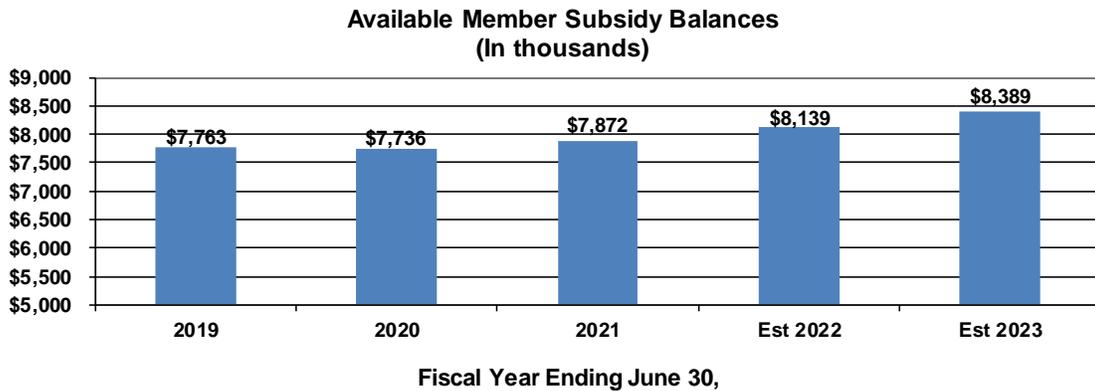

- Salaries and benefits includes two new positions to be added in 2021/22 across two areas: Workers' Compensation Claims and Data and Analytics. These positions spread technical work among staff, speed up product and project timelines, reduce caseloads, and increase control over services. These changes will bring employee count to 95 in 2022/23.
- The history of the number of authorized positions is illustrated in the following chart. The count excludes two positions included in the capital outlay budget for development of the proprietary claims system which began in 2020/21.

History of Authorized Staff Positions

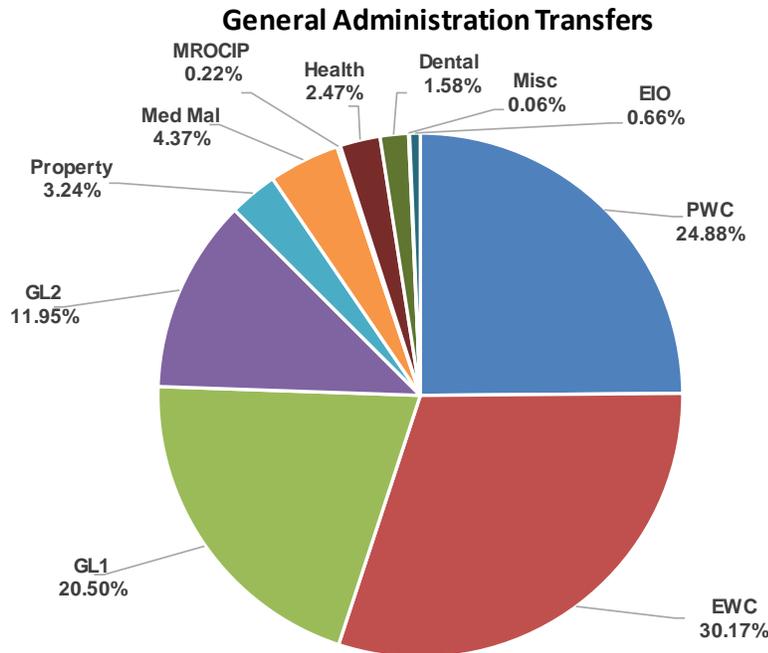

Loss Preventions and Risk Management Subsidies

PRISM has a long history of providing loss prevention and Risk Management Subsidies to our members. The following chart illustrates the balance of subsidies amounts available to members.

General Administration Transfers

General Administration expenses are supported from transfers from all PRISM programs. Separate allocations are computed for loss prevention, the web based claims system, risk management subsidies, and general administration. The percentages of transfers from all programs are as follows.

Charges to PRISM programs from the General Administrative fund are based on expected costs during the budget period less any carryover approved in accordance with the Target Funding Guidelines. For fiscal year 2022/23 a carryover of \$2.7 million was approved to be used to offset transfers from other programs. As a result, there is expected to be a \$2.7 million decrease in the Net Position of the General Administrative fund.

General Administration Program Budget Policy

Program Goals for General Administration include the following:

Short Term Goals

- Align staff activity to support program specific short and long-term goals.
- Update Performance Measures for all departments.
- Continue development of member and pool management functionality on the PRISM website.
- Expand data and analytics services provided to members.
- Annually update the Insurance Requirements in Contracts Manual.
- Continue legislative advocacy regarding issues affecting PRISM's industry.
- Continue the supervisory development training program to prepare technical staff for the next level of career advancement.
- Continue staff training on new data analytics software.
- Implement a comprehensive member outreach plan to increase utilization of existing member services by 10% year over year.
- Investigate creation of an "EAP like" program for law enforcement and fire fighters
- Seek accreditation by International Accreditors for Continuing Education and Training (IACET)
- Continue to enhance Member Service and Risk Control programs:
 - Continue marketing and utilization of the Enterprise Risk(ERC) program and engage more Enterprise Risk Consultants
 - Continue marketing efforts of Pass the Baton – A Risk Management Mentor Program and marketing of the Risk Management Practitioner Program
 - Marketing of new services including Law Enforcement Programs, POST Courses, Physical Abilities Testing, Workforce Management Software, Road Maintenance GIS Software, and more.
 - Expand marketing the Risk Management Legal Advice Services.
 - Continue marketing of Employment Practices Liability services offered by the Eyres Law Group to all members.
 - Continue to expand Risk Control services to Educational Members.
 - Continue and expand Gap Analysis Surveys within the Risk Assessment Tool to address PRISM business needs and Emerging Risks.
- Continue to work with Vector Solutions to expand the LMS services and trainings
- Market the sixth year of the Eagle Awards Program.
- Deliver annual employee performance reviews by June 15th of each year.
- Continue and update the fifth year of the PRISM strategic plan

- Continue enhanced efforts to increase communication and contact with County membership through personal visits and Public Entity membership through webinars and personal visits.
- Internal Policies and procedures inventory, document and update across all PRISM departments.
- Continue set up and implementation of new accounting software (Intacct) and HR software (EKG)
- Implementation of GASB pronouncements 87 and 96 related to the allocation and recognition of leases

Long Term Goals

- Strengthen funding policies to avoid capital erosion.
- Continue and improve professional development plans to all employees of PRISM.
- Implement quality control checks on TPA claim data entered in the claim system.
- Document organization wide policies and procedures.
- Compile department goals and align departmental goals to PRISM Strategic plan
- Develop a processes to validate, streamline, and consolidate data throughout the organization
- Foster and promote employee job satisfaction, engagement and professionalism.
- Continue to foster superior customer service to members.
- Continue to develop services in response to emerging trends.
- Develop loss data consistency throughout the claims reporting system and among members.
- Continue to monitor our benefit package to ensure competitiveness with the market.
- Maintain accurate employment records in electronic archiving system.
- Promote effective policies for contracting for PRISM services, including long term contracting for board meetings.
- Maintain compliance with the Brown Act and governmental reporting requirements.

Budget Policies for General Administration include the following:

Revenues

Member services revenues are used to account for the fees for a variety of cost saving services approved by PRISM committees. The costs of providing these services are passed through to the members using the services. These services include:

- Enterprise Risk Consultant Fees – Enterprise Risk Consultant fee revenue is generated from a program where highly-experienced Risk Managers, Finance, Human Resources, Risk Control Specialists are available for PRISM members to

use during staff transitions or any other situation. This is a fee for service program pass thru for the PRISM financials.

- Strategic Planning- The PRISM Member Services department now offers facilitating strategic planning sessions for their members at a discounted price.
- Claims System – Members of the PRISM who have been using the iVOS claims system as their primary claims handling system have the option to transition to our new claims system. In addition, members never using PRISM’s claims system have the opportunity to do so. There are various payment options available. The direct cost of the Program is billed to the participating members.
- Investment income is budgeted at an estimated earnings rate determined annually, based on the estimated portfolio yield on invested assets and expected cash flows, and applied to the average daily balance invested in the PRISM Treasury. The estimated earnings rate is determined by the Finance Committee and approved by the Executive Committee and Board of Directors. The estimated earnings rate is also the rate established by the Inter-Fund Borrowing Policy, wherein a program can temporarily borrow funds from the PRISM Treasury.
- PLIP Income – The Executive Committee has approved a Personal Lines Insurance Program (PLIP) allowing PRISM and member employees to access group savings for personal insurance. The Program is operated in partnership with the California State Association of Counties (CSAC). Affinity fees are received quarterly and are shared equally with CSAC.
- Shared Cost Agreements – The Executive Committee has approved shared cost agreements, in which the cost of PRISM staff or services is shared with PRISM vendors.
- Reinsurer LP Subsidy –These are amounts received from some of the PRISM reinsurers to be used for certain loss prevention services. Corresponding expenses are reflected in this budget in the member services expense section
- Meeting Revenues – Voluntary contributions from PRISM partners and vendors, toward the cost of PRISM meetings and events, are recognized as meeting revenue.

Expenses

- Staff salaries and benefits are based on policies established by the Personnel Sub-Committee and approved by the Executive Committee. This includes approval of authorized positions, salary classifications and pay ranges, benefit levels and other personnel matters. New staff positions, classifications changes, market adjustments to pay ranges, merit pay pool limits, and defined benefit and defined

contribution rates are approved annually by the Personnel Sub-Committee and Executive Committee.

- Staff Travel – Employees are reimbursed for ordinary and necessary travel cost for authorized business related purposes. Mileage cost is reimbursed at the rate established by the Internal Revenue Service. Other reimbursable travel costs include the actual cost for lodging, meals, and related ordinary and necessary incidental expenses.
- Authority Meeting Expenses – Members of the Board of Directors, or their alternates, are reimbursed for ordinary and necessary travel expenses. Reimbursements are based on the Travel Policy approved by the Board of Directors. A second county representative attending a Board of Directors meeting may be reimbursed for travel expenses, provided that the first county representative is a voting member of the Board of Directors.
- Executive and Committee Travel – Members of Authority committees and members interested in joining Authority committees are reimbursed for ordinary and necessary travel expenses to attend committee meetings and the conduct of other committee activities. Reimbursements are based on the Travel Policy approved by the Board of Directors.
- Audit Services – An independent audit examination of the PRISM Annual Comprehensive Financial Report (ACFR) is completed each year by a Certified Public Accountant. The Finance Committee selects the independent auditor. The audit contract is based on a Request for Proposal (RFP) process determined by the Finance Committee.
- General Admin Consulting includes internal audit costs relating to Enterprise Risk Assessment and Policies and Procedure development and peer review of internal actuarial work and other professional services.
- Legal Services – The Board of Directors and Authority committees may appoint Legal Counsel to provide legal services to the Board of Directors or Committees.
- Management Training – Management training expenses include the cost of periodicals and publications, education and scholarships, conferences and seminars, and membership dues. Management training expenses are approved by PRISM senior management.
- Computer Hardware, Software and Technical Support includes the cost of software licenses, annual maintenance and support and computer hardware less than the \$5,000 capitalization threshold for all systems except the claims system. This category also includes the cost of web-based conferencing, external computer technical assistance and the costs associated with website design, hosting and support.

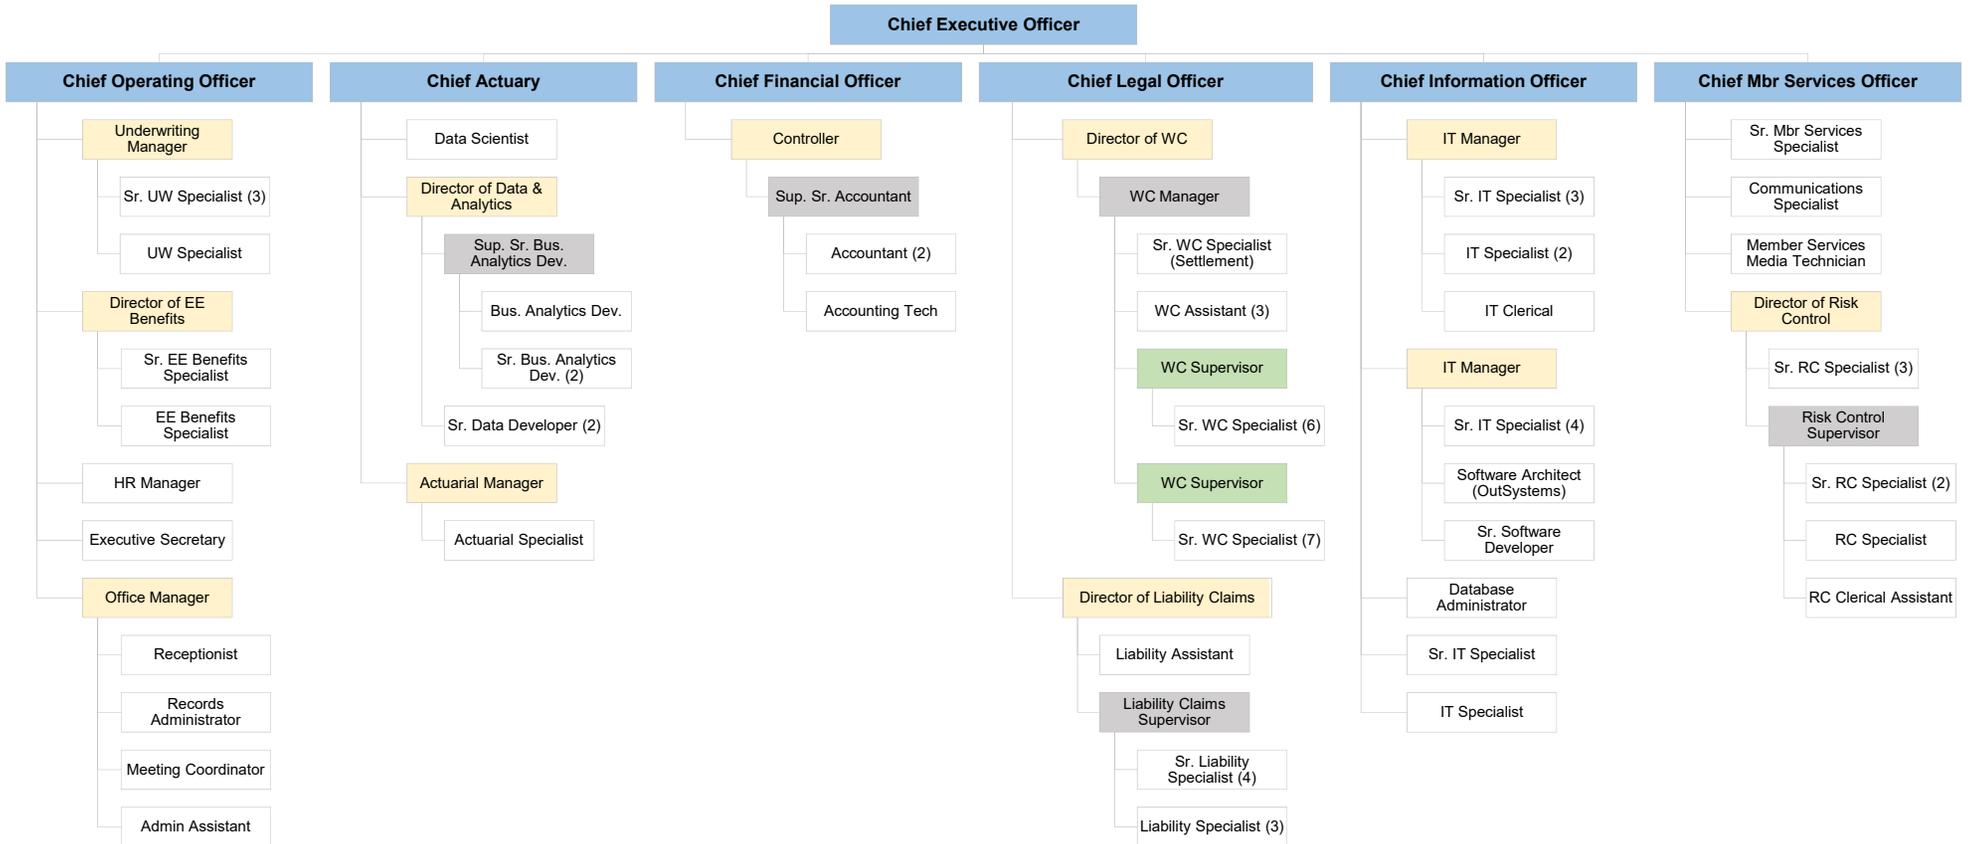

- Claims System – This includes the costs for data conversion, training, maintenance, cloud hosting, PRISM contract project management and depreciation on capitalized costs for the claims system, for both PRISM and its third-party administrators.
- Legislative advocacy services are provided by a third-party contract to represent the pooling industry's interest, primarily at the State level.
- Investment expenses represent the cost of third-party investment management services to PRISM and the Captive (ARC)
- All Captive (ARC) expenses are borne by the Captive, either directly or as transfer from ARC to the PRISM's GA program. Every year, staff recommends the reasonable amount of ARC's share in the GA expenses of the PRISM. Since the Captive is a blended component unit of the PRISM, its budget and actual financial results are combined with PRISM's budget and financial results.
- Loss Prevention Platform – An online training and safety/risk management platform is available to all members providing access to a wide range of training topics. The Platform also includes custom activity, credential tracking, a resource center, and file center functions. The cost for the Loss Prevention Platform is included in the Administration Fee, allocated to all members.
- A variety of loss prevention monitoring, educational, and awareness services are provided to members as approved by the Board.
- Other ordinary and necessary expenses are estimated and approved through the regular budget process and according to the Budget Preparation and Management Policy.
- A Contingency amount is budgeted, and may be transferred to any line item with the approval of a two-thirds vote of the Executive Committee.

Transfers

- Transfers in from each PRISM program are used to pay for PRISM staff and all other administrative costs. These costs are reduced by carryovers as a result of a lower estimated cost for the current year and per PRISM's General Administration Target Funding Guidelines. These administration costs are allocated to all PRISM programs based on a three-year average of staff time. The Captive is currently charged a flat administrative fee for the fiscal year recommended by staff and evaluated by the Finance Committee.
- Transfers in from relevant PRISM programs are used to pay for the cost of claim system. This cost is charged to those programs whose claims are administered through the system and to the extent of their use of the system.
- A transfer in for investment fees reimburses the PRISM Treasury for the cost of third-party investment management services.

- PRISM rent is the share of rent for PRISM occupied premises and it is the transfer out from the GA program into the building program

PRISM Reporting Structure as of 07/01/2022

ADMINISTRATION DEPARTMENT

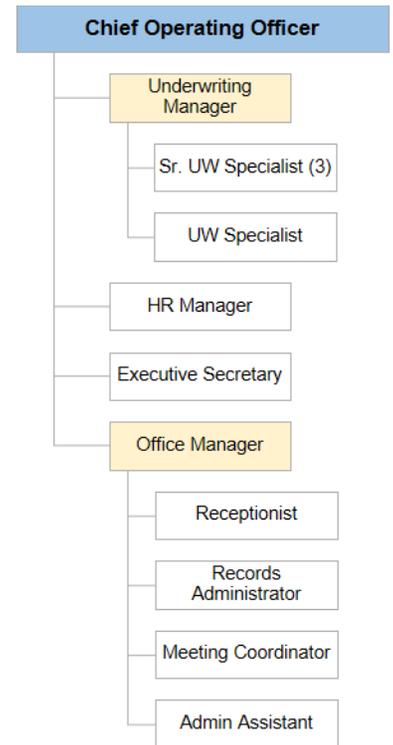

2022/23 Staffing Budget: \$2,106,038

Departmental Functions:

- Oversee administration of all PRISM operations, programs and services. Manage governance functions including preparation and distribution of meeting agendas, preparation of meeting minutes, and coordination of member travel and other meeting arrangements.
- Manage all staff service functions including Human Resources, payroll processing, and employee training.
- The offices of the CEO and COO are the face of the PRISM with our service partners, including our brokers, our insurers, and most importantly, our members.
- Responsible for the implementation of strategic initiatives.

Major Accomplishments in Fiscal 2021/22:

- Added an additional out-of-state member participant (Arizona Schools Risk Retention Trust).
- Retained 99% of members at renewal of the programs, and have a three-year average of 99%. In spite of increasingly and continuing challenging times, successfully renewed all coverage programs, while maintaining broad coverage with limited loss of limits or significant changes in coverage. Strategically utilized risk retention where limits were no longer available. Examples of this include creation of separate towers as part of a risk financing solution that allows PRISM to add members to the GL programs and transitioning the Primary Layer of the Property Program to a pooled layer.
- Successfully continued governance of PRISM by transitioning all meetings to a web based or hybrid environment. The implementation of virtual and hybrid meetings has resulted in more attendees, increased engagement, and allows members not on Committees to more easily attend and learn about the various programs.
- Continued success with all staff working remotely, while maintaining very high levels of customer service and improving customer satisfaction ratings.
- Maintained a staff retention rate in the low 90% range. Given the fast and ever-evolving changes in today's workforce, PRISM has continued to be creative in finding ways to keep a largely remote workforce connected and providing a very high level of customer service.
- Began the process of implementing a new automated HR system, which will provide for efficiencies in processing payroll, time-keeping, and related HR functions.
- Amended remote work policy, as a result of anticipated wider usage post COVID, to continue to cultivate and support a positive working environment, retain/attract employees, and promote happy/highly productive staff.
- Increased member contacts by 240 as a result of the Three Deep Initiative.
- Provided members with updated hard-market messaging for impacted coverage programs to assist members in communicating with their stakeholders.

Performance Measures for Fiscal 2022/23:

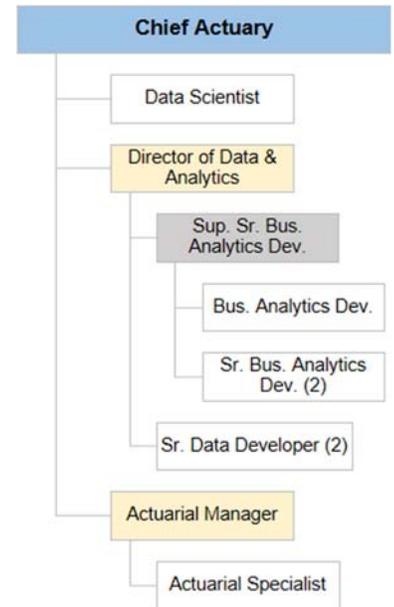

- Maintain high member satisfaction ratings with a 5% increase in Very Satisfied survey scores.
- Establish the value of PRISM with members' employees and increase CEO engagement with the members via site visits (virtual or in person), committee meetings, and conference attendance.
- Continued implementation of a hybrid model for meetings in order to ensure members continue a high level of engagement and PRISM remains member-directed.
- Increase member utilization of the benchmarking tool/member dashboards by 20%.
- Continue to take a measured approach in looking for good opportunities to expand outside of California via PRISM's captive insurance company.
- Evaluate continued assumption of risk through the captive insurance company.
- Compliance 100% of the time in meeting Brown Act deadlines for agenda and meeting materials.
- Continue participation in PAFR program.
- Continue development of succession plans for all PRISM staff and continue to maintain and update succession plans in place.
- Complete transition to new HR/payroll system in summer 2022.
- Modify PRISM office space to accommodate all employees in Suite 200 so that Suite 175 is available for lease by fall 2022 and Suite 200 space has more work areas designed for collaboration and team-oriented work.

ACTUARIAL SERVICES DEPARTMENT

2022/23 Staffing Budget: \$2,026,579

Actuarial Departmental Functions:

- Provide actuarial services for the major property and casualty programs including analysis of pooling layers and various insurance options.
- Provide actuarial estimates of outstanding liabilities and recommendations on member premium rates for all major property and casualty programs.
- Provide allocation models for each of the major P&C programs.
- Provide analysis and/or analyzers for reinsured layers and reinsurance rating plans for the major P&C programs.
- Provide all actuarial support for PRISM ARC.
- Provide in-depth claims and loss analysis.
- Provide quarterly actuarial updates for GL1, EWC, and MM as needed
- Provide PWC and DBD quotes as well as other ad-hoc analyses as needed.
- Provide actionable data to various programs and departments

Actuarial Major Accomplishments for Fiscal Year 2021/22:

- Completed actuarial analysis for the major property and casualty programs, including timely recommendations on rates for the 2021/22 year.
- Produced outstanding liability and projection estimates on a quarterly basis.
- Produce in-depth loss development factor analysis for the EWC and GL1 programs.
- Provided the actuarial estimates and factors, cash flow projections and balance sheets necessary to evaluate the GL1 LPT and reinsurance renewal.
- Evaluated reinsurance structures and premium costs against self-insurance.
- Provided actuarial support for PRISM ARC.
- Provided 6 PWC quotes and 2 DBD quotes.
- Provided a GL2 actuarial rate study and member model.
- Provided reinsurance analyzers to analyze various reinsurance scenarios for EWC, PWC, GL1, and GL2.
- Updated the PWC program ULAE calculation to include updated durations for the PWC TPAs.
- Provided self-funding estimates for the \$10M primary layer for the Property Program.
- Developed new pool (\$2M xs \$1.5M xs SIR/Ded) rates for MedMal.
- Provided self-funding estimates for the \$2M xs \$5M layer in MedMal.
- Provided UC Hastings Unlimited ERP Pricing.
- Enhanced the equitability of the administrative charges allocation in the MedMal Program.
- Evaluated appropriateness of actuarially rating PWC and DBD members, which resulted in 2 PWC members and 1 DBD member switching to be payroll rated.
- Hosted a PRISM Perspectives Podcast on Data Science and Predictive Analytics.
- Prepared WC Trend Identification Group Exhibits and analyses.

- Provided additional ultimates and rates for PWC extending the program's limit to \$250k and \$300k.
- Presented the "MsRe Deal Webinar" to explain the details of the arrangement.
- Provided Loss Portfolio Transfer (LPT) estimates for Trindel on older years.
- Analyzed carrier reimbursements on PRISM claim payments (ie "Problematic Insurance Placements Project").
- Performed loss rate comparison of new GL1 members to older members.
- Analyzed the EWC low and high safety rating group payroll threshold of 40%.
- Updated GL1 IMCD premium discount matrixes.
- Provided in house ULAE projections and outstanding estimates.
- Developed text mining algorithm to correct and condense the occupation field in our loss runs.
- Produced or updated size of loss distributions for EWC, GL1, and MM.
- Finance MIP report description parsing project.
- Automated the reconciliation of bank and DnA reports for PWC.
- Automated the tracking of changes to DnA's EWC reports.
- Developed Transit claim identification algorithm for the GL1 program.
- Developed Law Enforcement and Mental Health claim identification for the GL1 and GL2 programs.
- Performed an excess study on the \$4M xs \$1M layer of the EWC and GL1 program to be continued into 22/23.
- Provided 1 pricing estimates for a prospective out of state participant and 1 renewal pricing estimate for a renewing out of state participant.

Actuarial Performance Measures for Fiscal Year 2022/23:

- Strive for continued innovation, creative ideas, and progressive strategy as respects the programs, services and organization as a whole.
- Ensure objectives outlined in the organizational strategic plan are moving forward and/or completed within the established timeframes.
- Complete actuarial analysis for the major property and casualty programs, including timely recommendations on rates for the 2022/23 year.
- Produce outstanding liability and projection estimates on a quarterly basis for the EWC, GL1, and MM programs.
- Provide analysis and/or analyzers for the major programs' reinsurance arrangements and plans.
- Provide allocation models for each of the major programs.
- Produce in-depth loss development factor analysis for the EWC and GL1 programs.
- Produce or enhance size of loss distributions for EWC, PWC, GL1 and possibly GL2.
- Provide all actuarial support for the PRISM ARC.
- Provide in house ULAE projections and outstanding estimates.
- Provide PWC and DBD quotes as needed.
- Update GL1 IMCD premium discount matrixes.
- Continue to analyze various underwriting factors (territory, safety/non-safety) for the EWC and GL1 programs.
- Update the 4850 benefits analysis for PWC and EWC, subject to usable data.
- Analyze and update age to age loss development tail factors for the major program loss development factors.

- Expand on the \$4M xs \$1M excess study for EWC and GL1.
- Incorporate other methods and data into reinsurance analyzers to provide greater breath of ultimate ranges for selection.
- Incorporate any pool corridors into the discounting and confidence level factor calculations for rates.
- Develop a premium allocation model for the GL2 program.

D&A Departmental Functions:

- Manage monthly, semi-annual, and annual loss experience processing and reporting.
- Manage the excess loss reporting process including Prism Program Performance (PPP) reporting, Loss Portfolio Transfer (LPT) reports, COVID and CIGA reporting, and the Bordereaux (BDX).
- Provide all data, information, and reports required to support the renewal process.
- Incorporate data from Underwriting and other sources to document membership and renewal data, along with exposures to support Actuarial and experience reporting needs.
- Work with data providers (members and TPAs) to improve the quality, timeliness, and availability of loss and exposure information for PRISM and its membership.
- Develop and deploy reports, analytics, and data driven applications including performance reporting and benchmarking for the membership.
- Support the data needs of various PRISM departments and provide additional reporting, analysis, and reconciliation for members, partners, and staff as needed.
- Maintain and develop the DnA Database for all PRISM reporting and analytic needs.
-

D&A Major Accomplishments in Fiscal 2021/22:

- Completed the annual loss data collection process for the major P&C programs and provided semi-annual GL2 loss data package to the market.
- Continued to expand PRISM monthly loss data reporting, onboarding several new members into the program.
- Produced all quarterly informational CSRs, monthly and quarterly LPT reports and BDX, and initial PRISM Program Performance (PPP) reports for the Committees and Board.
- As part of the process of developing the new PPP database components, D&A staff provided a detailed analysis of the SIMS system's financial data and generated action items for the IT SIMS team to incorporate into the new PRISM claims system.
- Developed new AmSafety and Ace EWC BDX, a payment allocation package for the AmTrust PWC BDX, a new DBD BDX for ARC, and a new BDX report template to be used for all current and future BDX.
- Continued to respond to changing COVID-19 reporting requirements including reporting member COVID losses to the market as part of the annual loss data package and to the carriers via the monthly and quarterly BDX. We are also providing monthly COVID loss data for the PRISM Excess Claims system (SIMS).
- Provided actuarial study data for the Actuarial team for the PWC, EWC, DBD, GL1, GL2 and Med/Mal programs.

- On behalf of the members, provided approximately 100 loss data files to Bickmore Actuarial in support of member actuarial studies.
- Deployed Member Dashboards to the membership on schedule, and work continues on additional member dashboard components and reporting:
 - Dashboards were released to a pilot group of members in May of 2021.
 - After the initial pilot program, the dashboards were released to the entire PRISM Membership soon thereafter.
 - A new monthly loss experience report package (both liability and WC) will be distributed to a pilot group of members in May of 2022, and the package is planned for release to all members (who provide monthly loss data) on a monthly basis beginning prior to fiscal year end 21/22.
- Initial Staff Dashboards were provided to a small group of PRISM staff in Q1 and Q2 2022:
 - Membership Information
 - Member Loss Performance
 - Member Visit

These dashboards will be released to additional staff prior to fiscal year end, and additional dashboards (including member services) are planned for 22/23.

D&A Performance Measures for Fiscal 2022/23:

- Strive for continued innovation, creative ideas, and progressive strategy as respects the programs, services and organization as a whole.
- Ensure objectives outlined in the organizational strategic plan are moving forward and/or completed within established timeframes.
- Support the renewal process by providing needed data, information, and reports to the reinsurance market.
- Complete the Annual and Semi-Annual Loss Data Collection processes for the major programs accurately and on time.
- Deliver all quarterly Claims Summary (CSR) and Loss Portfolio Transfer (LPT) reports, and monthly Bordereau (BDX) reports accurately, and on time. Add new reports as needed.
- Transition to the new PRISM claim system as the source for excess loss reporting data. Working with IT Claims, support the development and deployment of the system.
- Continue to track and report on COVID-19 claim activity and develop database components and reports to accommodate the changing requirements.
- Produce annual excess reportable reports, monthly CIGA tracking, monthly loss runs, and monthly Ed Tower reports.
- Continue development and expansion of benchmarking tools and member dashboards throughout 2022 and 2023.
- Provide an annual loss experience summary report to all Liability and WC Members beginning in the fall of 2022.
- Deploy additional internal dashboards to support general staff information needs, and allow staff to better support the membership.
- Deploy PRISM Program Performance (PPP) dashboards to PRISM staff, and generate additional PPP reports for the Board and Executive and Underwriting Committees.
- Support the Data Science and Actuarial practices as needed.
- Continue to maintain and improve the DnA database and develop and deploy new information products for the membership, partners, and staff.

CLAIMS DEPARTMENT

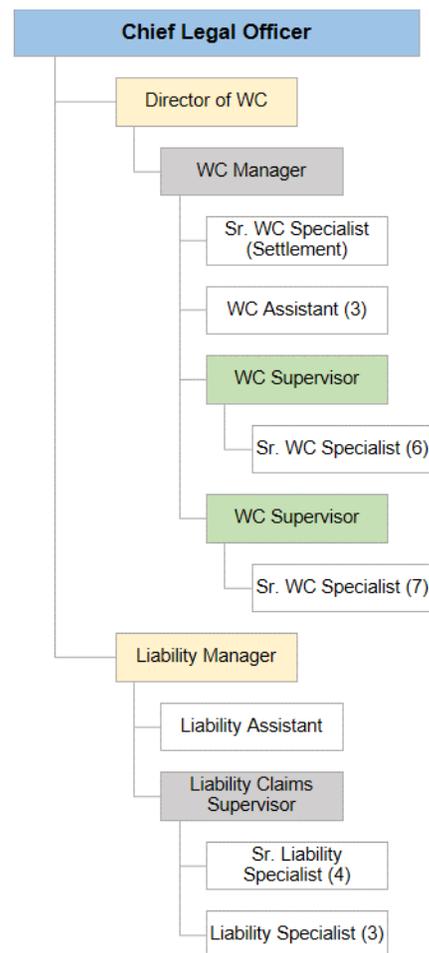

2022/23 Staffing Budget: \$4,555,638

Departmental Functions:

- Plan, organize and direct the claim functions throughout PRISM.
- Work with members, vendors and business partners to control claims costs.
- Provide Legal Services to PRISM including legal advice, respond to subpoenas and public records act requests, advise regarding Brown Act Compliance, and review contracts.

Major Accomplishments in Fiscal 2021/22:

- Negotiated TPA Contract for the Property Program, established processes for managing Property claims under new Program structure, and began direct oversight of TPA.
- Provided legal advice to PRISM staff including, but not limited to the following areas: Human Resource matters, Brown Act issues, and service provider contracts.
- Reviewed WC COVID loss data from SIMS system and member data feeds on a monthly basis to aggregate data and provided updates to EWC reinsurers.
- Worked with IT Department to build IMCD and Group Corridor Tracking mechanisms in SIMS.
- Implemented a new claims reporting process for GL1 and GL2 reinsurers including weekly new loss reports and quarterly email updates on large loss exposures.
- Worked with IT Department on gathering requirements for the PRISM Proprietary Claims system.
- Reviewed and influenced the terms of various Program reinsurance contracts for the 2021/22 Program year.
- Through lobbying efforts, had a significant impact on a variety of bills introduced by the California legislature in 2021 and 2022, including CalOSHA's COVID-19 ETS.
- Processed claim reimbursements to members within 30 days of receipt of all supporting documentation.
- PRISM's workers' compensation claims team continued to resolve difficult claims resulting in savings to the EWC program.
- Continued to obtain reimbursements from CIGA and Riverstone for the EWC coverage periods that involved Castlepoint.
- Processed Bordereaux invoicing for EWC and DBD programs monthly.
- Continued to evaluate WC Member's use of Carve-Out Programs and provided performance metrics to the Claims Review Committee.
- Participated in the Peace Officer Mental Health Task Force.
- Developed coverage alert letters for the Medical Malpractice Program.

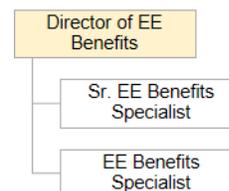

Performance Measures for Fiscal 2022/23:

- Continue collaborating with IT to build the in-house proprietary claims system.
- Through audit and loss analysis process, continue to provide information on a timely basis to underwriting staff and committees to direct loss prevention and mitigation activities.
- Invoice excess reimbursements to reinsurers/excess carriers within five days of issuing payment. Oversee and follow up with those reinsurers to achieve at least 80% reimbursement within 30 days of invoice issuance.
- Assist Data and Analytics Department with determining key information needed for their use in developing analytical tools for Claims Department and members.
- Evaluate WC members' use of Carve-Out Programs and provide metrics of performance to the Claims Review Committee.
- Establish PWC TPA Report Cards for key claims performance measures.
- Review possibility of offering quarterly GL claims reviews with members.
- Update existing and develop new program reports to improve overall program management.
- Work with IT to develop a property line of business in the new proprietary claims system.

EMPLOYEE BENEFITS DEPARTMENT

2022/23 Staffing Budget: \$463,742

Departmental Functions:

- Oversight of PRISMHealth & Employee Benefits Program Administration.
- Collaborate with Broker and Carrier partners in the representation of program initiatives.
- Educate Members on PRISMHealth and Employee Benefits offerings and important issues related to industry specific compliance.
- Attend and assist with Health and Benefits meetings addressing open enrollment, health fairs and implementation of new coverage offerings.
- Assist in resolving service issues for members and their employees within the Health and Benefits Programs.
- Maintain and audit complex Program Performance Reports for Health and Dental.
- Present and implement cost containment strategies.

Major Accomplishments in Fiscal 2021/22:

- Stable and equitable renewals for all Employee Benefits programs.
- Continued PRISMHealth and Dental program growth, with an increase in service levels to members and their employees/retirees.
- Distributed \$75K in wellness funds to the members of the PRISMHealth program in a continued effort to support member wellness initiatives.
- Provided enhanced PRISMHealth member utilization reports via the new Integrate Data Analytics Platform for PRISMHealth members.
- Added new Health program partners that address Specialty Drug Pharmacy costs, Diabetes Management and Musculoskeletal conditions.
- \$2 Million Dental Program dividend declared and distributed to program members.
- Increased communication of Life & Disability, Vision and EAP services to existing members and to those not currently participating in the programs.
- Added Paid Family Leave and Group Voluntary Benefits to the Life & Disability program options.
- Successful completion of the TPA transition on the Dental and Vision Program.

Performance Measures for Fiscal 2022/23:

- Increase continued visibility and education of services available to members through the Employee Benefits programs.
- Increased communication plan for members of all Employee Benefits programs.
- Further implement the PRISMHealth direct member communication plan for important program announcements.
- Increase PRISM visibility at Employee Benefits related conferences.
- Maintain high member satisfaction.
- Implement new TPA partners, UMR, Accolade and Bind for Health program.
- Promote member growth in all Employee Benefits Programs.
- Strengthen communication and collaboration with our Broker and Carriers.

INFORMATION TECHNOLOGY DEPARTMENT

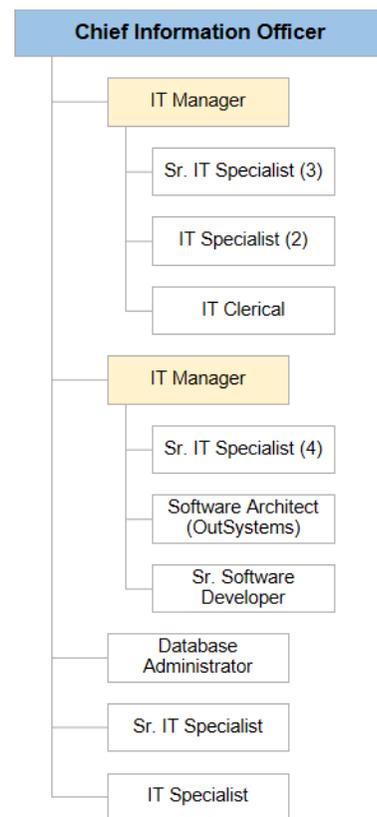

2022/23 Staffing Budget: \$2,560,192

Departmental Functions:

- Provide technology direction and oversight to implement and support organizational goals.
- Maintain technology infrastructure to ensure efficient and secure operations of PRISM.
- Provide specialized reporting capabilities for claims handling.
- Provide first level of support for members who are on our Insurity ClaimsXpress contract.
- Provide project management, system conversion, and system upgrade support for members.
- Provide development and management of digital media and content – website, pool management, and communications.
- Support all software systems including Claims Management, Policy Management, Human Resource Management, Financial Management, and others.

Major Accomplishments in Fiscal 2021/22:

- Continued development of the ANCP and Prospect applications
- Enhanced grid renewal application question types to better identify changes occurring
- Started development on Form Builder solution that will address renewal application's roadmap for final enhancement work as well as enable staff the ability to create/manage new forms, as needed
- Continued requirements gathering and development of Contact Management for staff and members
- Assisted with selection and implementation of new accounting system
- Selected system, completed discovery and requirements gathering, begun build of new HR system
- Provided support for 19 ClaimsXpress instances, as well as support 3 self-hosted members
- Continued development of the new proprietary claims system, as well as provided extensive testing of developed items, and provided clarification on requirements
- Collaborated to import and validate over 20,000 EWC member claims from D&A, including financials
- Improved functionality and accuracy to the OSIP reports for all TPAs and WC members in ClaimsXpress
- Created an independent validation processes to ensure accurate OSIP reporting resulting in over \$100k savings for one member
- Created new Frequency and Severity reporting for Risk Control
- Resolved member ISO billing issue that saved the member \$234k
- Created a highly customized POA template for Corvel
- Added logic to the ExamWorks interface to incorporate Medicare MAP data
- Improved functionality and accuracy for 1099 reporting, as well as incorporated new reporting requirements
- Created new Chubb 45x5 reports

- Created custom reports and subscription process for reinsurers
- Created several new business rules for TPAs, members, and PRISM
- Provided new employee training for TPAs, members, and PRISM
- Conducted true-up process for AmTrust
- Created SIMFIN accounts payable interface for Santa Barbara
- Created new bill review interface for LWP's new vendor
- Implemented information security improvements to further protect critical and sensitive data
 - Additional Managed Detection and Response (MDR)
 - Enhanced protections with security operations center (SOC)
 - Improved email security
 - Additional protections for data backups
- Successfully expanded staff cybersecurity training and lowered organizational risk score
- Implemented Software Defined Network (SD-WAN)
- Enabled meeting rooms at Folsom office for hybrid meetings
- Robotic Process Automation (RPA) software upgrade

Performance Measures for Fiscal 2022/23:

- Complete development of the ANCP, Prospect, and Form Builder solutions
- Implement supplemental WC applications in support of WC Payroll Audit and collection of additional information needed for OSIP reporting
- Make Contact Management available to staff and members on the website
- Implement redesigned user dashboards on the website
- Enhance Coverage Data (data not specific to a coverage period)
- Implementation of new HR system, expected go-live in August
- Continue development of the new proprietary claims system
 - Tentative Minimum Viable Product (MVP) implementation Fall 2022
- Evaluate and pursue development of the following claims system (ClaimsXpress) activities, if deemed appropriate
 - Migrate Corvel data to selected TPA(s) by 6/30/22
 - Continued enhancement and execution of bulk claim load for member submitted data and from the DNA database
 - Continued report development and enhancement
- Improve organizational risk score (within security awareness platform)
- Develop information security roadmap
- Perform email server upgrade
- Implement virtual desktop technology to increase efficiency of PC management and lower long term cost of desktop computing
- Expand usage of Robotic Process Automation (RPA) to automate tasks and workflows that save staff hours

MEMBER SERVICES DEPARTMENT

2022/23 Staffing Budget: \$1,990,837

Departmental Functions:

- Provide member directed risk management services that target and reduce exposure to losses
- Market existing services to ensure member awareness
- Evaluate new service offerings based on member demand, as well as staffing and funding considerations
- Provide on-demand training and risk control services that continually adapt to members' changing risk needs
- Develop/maintain information resources and best practices
- Maintain a library of training aids and programs
- Participate in PRISM prospect evaluation process
- Participate in and conduct PRISM member meetings

Major Accomplishments in Fiscal 2021/22:

Created

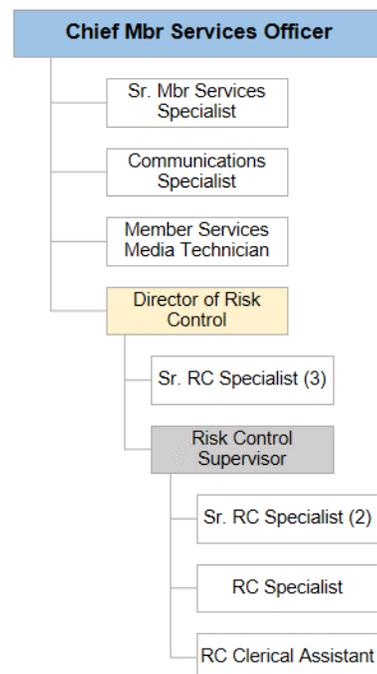

- A COVID Resource Page on prismrisk.gov and a Law Enforcement landing page
- A 19% increase in training course completions and 92% increase in Vector Solutions course completions Continued providing distance learning through POST and created an on-line, self-paced de-escalation course. Parallel course (unaffiliated with POST) was also developed and is available to all PRISM members on our LMS
- Courses with Articulate software & posted to Vector Solutions platform
- Risk Control Open Forum, Claims Conversation Corner and Perspectives – monthly online open forums for members
- A risk management mentor program called Pass the Baton
- An open channel & Podcast channel on PRISMtv
- Added 241 new contacts as a result of the Three Deep Initiative

Updated

- CPS HR course work to include hybrid/online risk management practitioners program
- Safety Talks: A Tailgate/ Toolbox Resource
- IRIC Manual
- School Administrator's Guide to Preventing Sexual Abuse & Misconduct
- School Liability Handbook: Student Activities & Employment Issues
- Employment Practices Manuals
- HSI services - Added RSV & AVERT Training
- Plexus Global services – Added Drug & Alcohol Testing Program Management

Performance Measures and Goals for Fiscal 2022/23:

- Evaluate stop gap measures to fill risk management needs
- Continue to identify individuals at member agencies to send targeted resources and information (Three Deep campaign)
- Expand member networking opportunities
- Develop methods to continually highlight available services to all members

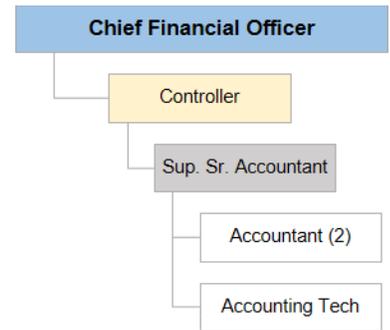

FINANCE DEPARTMENT

2022/23 Staffing Budget: \$894,775

Departmental Functions:

- Plan, organize and direct the investment and accounting functions throughout PRISM.
- Support program specific financial accounting, including financial statements, budgets, and claims reconciliations.
- Provide analysis and support to internal and external customers to support PRISM goals.
- Provide timely, transparent and easy to understand financial reporting to committees and members.

Major Accomplishments in Fiscal 2021/22:

- Participated in and received the Certificate of Achievement for Excellence in Financial Reporting (ACFR), and Distinguished Budget Award from the Government Finance officers Association (GFOA) and assisted in the preparation of the Popular Annual Financial Report (PAFR).
- Financial audit completed for 2020/21 with no findings and unqualified opinion.
- Successfully implemented Intacct Finance software, configured for interim financial statement reporting and began evaluating software capabilities for preparation of ACFR schedules.
- Met or exceeded deadlines for claims reconciliation and funding information on programs' Claim reconciliations.
- Successful renewal billing cycle of 1099 invoices with a total value of \$685.3M with all amounts collected within 60 days.
- Assisted with CIGA invoicing process on the claim years from the CastlePoint liquidation.

Performance Measures for Fiscal 2022/23:

- Obtain ACFR and budget awards from GFOA.
- Present financials to the Board by their October meeting that agree in substance to the final audited financials.
- Select and implement a suitable software for ACFR preparation, or configure Intacct to produce ACFR reports.
- Provide Claims reconciliations funding numbers within quarterly specified time frames.
- Ensure that Treasurer's Reports are 100% accurate and released timely on a quarterly basis per California Government Code Section 53646 (b) (1).
- Ensure that the investment portfolio holding are in line with the adopted investment policy at the end of each quarter.
- Exercise prudent cash management practices which maximize earnings.
- Reconcile investment accounts timely and record all elements of investment activity with 99% percent accuracy (trivial rounding or timing differences are acceptable).
- Re-evaluate Captive investment policy and management of assets.
- Bill and collect 100% of renewal billing within 60 days of the new fiscal year.
- Bill claim reimbursements and member reimbursements within 3 days of receipt from the Claims and Underwriting Departments.
- Produce all invoices/billings 100% consistent with authorized requests with respect to customer and amount.
- Ensure that invoice coding is correct on 95% of invoices resulting in only minor reclassification of revenue needed at closing.

- Contact 100% of members via email and phone with invoices outstanding longer than 30 days.
- Provide aging of outstanding non-member invoices to other PRISM departments for follow up at least monthly.
- Pay all invoices within the due date and claim reimbursements within 2 weeks.
- Ensure that cash is disbursed only upon proper authorization of management for 100% of transactions.
- Ensure that invoice coding is correct on 95% of invoices resulting in only minor reclassification of expenses needed at closing (not counting routine accruals).
- Ensure that 100% of payments are routed to the correct payee address (checks) or bank account information provided to Finance (ACH).
- Collect signed Form W9 from 100% of new vendors before release of payment.
- Support HR payroll functions by processing all payroll on time and consistent with instructions and data provided by the HR department, including all employee and vendor payments.
- Work with HR to ensure that quarterly and annual regulatory and tax filings are 100% accurate and filed timely.
- Ensure payroll-related transactions are properly coded in the accounting system and properly reported in the quarterly financial statements.
- Assist HR with implementation of new HR System
- Implement UiPath BOT processing for accounts payable tasks.

Building Fund

PRISM has invested \$9.2M in our office facility located on Iron Point Circle in Folsom, California. This investment includes improvement to our office as well as preparing the remaining space for our tenants. The building fund houses PRISM at low occupancy cost as well as provides profit from our leasing operations. The Building Fund budget is illustrated in the following charts.

Building fund Revenues and Transfers (in thousands)

Public Risk Innovation, Solutions, and Management (PRISM)

CALIFORNIA

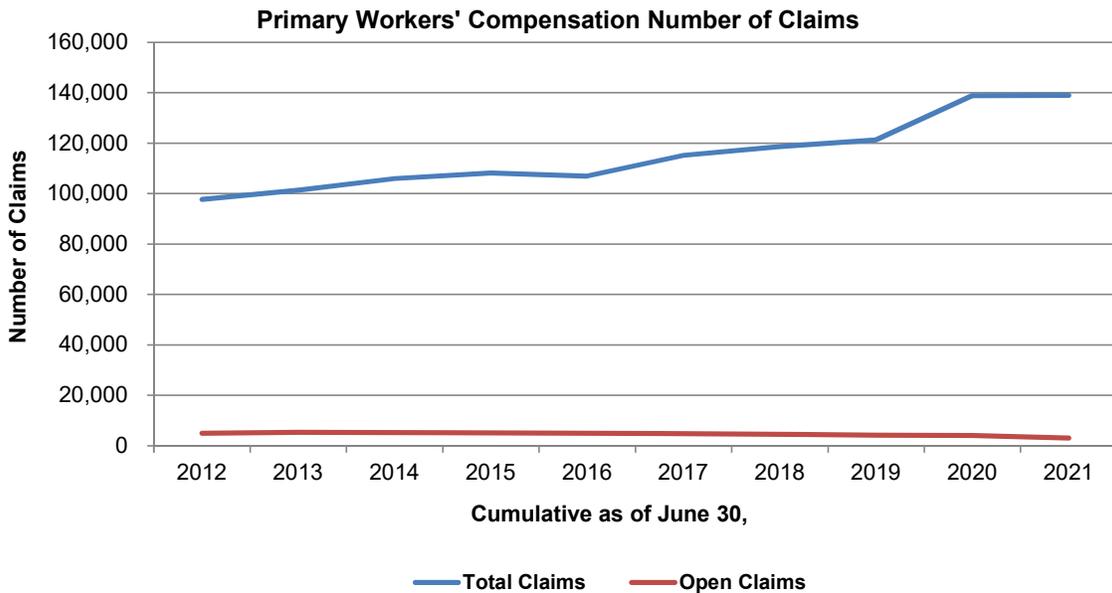

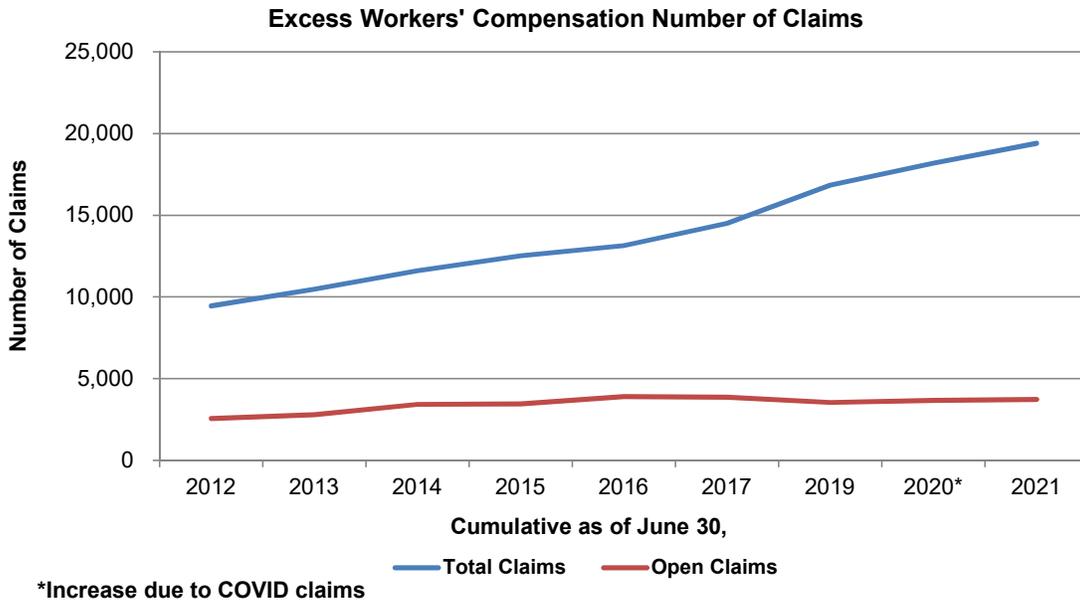

STATISTICAL/ SUPPLEMENTAL SECTION

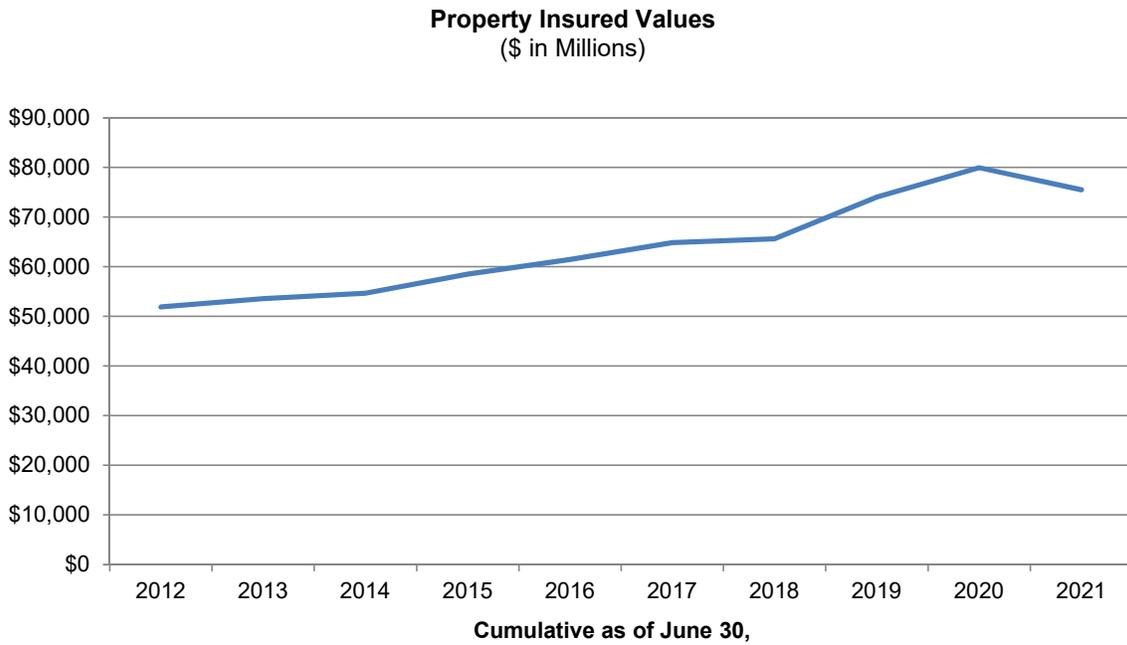

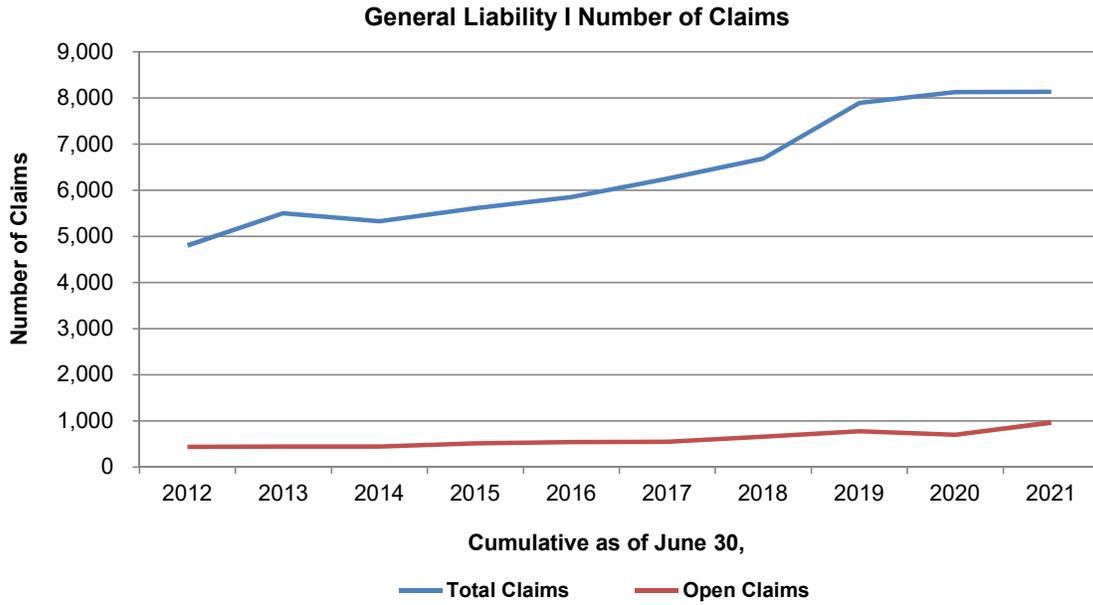

For the Fiscal Year
July 1, 2022 to June 30, 2023

**PRISM
ECONOMIC INDICATORS AND INFORMATION
FOR THE 10-YEAR PERIOD ENDING JUNE 30, 2021**

The best economic indicator of the financial stability for PRISM is the estimation of incurred claims expense (line 6) and claims paid (line 3) reported in the Schedule of Claim Development and Earned Assessments in the Required Supplemental Information section of the ACFR's Financial Section. Other relevant economic and demographic information would include trends for the number of claims, covered payrolls, property values, and PRISMHealth employees and lives covered as shown on the following charts.

GLOSSARY

Accrual: Accounting method that records revenues and expenses when they are incurred, regardless of when cash is exchanged.

Additional Named Covered Party (ANCP): A party added to a liability policy at the request of the named insured.

Aggregate: The cumulative amount of all losses for a period of time.

Aggregate Stop Loss: A financial arrangement with the JPA's excess carrier that caps the aggregate to a predetermined limit at which point the excess carrier would begin to reimburse for losses within the JPA's self-insured retention or pooled layer.

Amortization: The process of incrementally charging the cost of an asset to expense over its expected period of use.

Assessment: An additional amount charged a member if it is determined that the initial contribution paid is not adequate to fund the losses incurred.

Attachment Point: The dollar amount of a loss where the next layer of insurance begins to pay for the loss.

Balanced Budget: Budgeted revenues are equal to or exceed budgeted expenses.

Bonds: A fixed income instrument that represents a loan made by an investor to a borrower.

Budget: A formal statement of estimated income and expenses based on future plans and objectives.

Capital Expenditures/Capital Assets: Capital assets include furniture, equipment, and software, tenant improvements, building, with an individual cost of \$5,000 or more.

Captive Insurance Company: An insurance company that is wholly owned and controlled by its insureds; its primary purpose is to insure the risks of its owners, and its insureds benefit from the captive insurer's underwriting and investment profits.

Ceded Premiums/Claims Costs: Premiums paid to an insurance company and claims costs that are transferred to another entity in connection with a reinsurance arrangement.

Claims Made: Method of determining whether or not coverage is available for a specific claim. A claims-made policy states that a claim must be made during the policy period or the extended reporting period, if applicable.

Commutation: A clause in a reinsurance agreement which provides for estimation, payment and complete discharge of all future obligations for reinsurance losses incurred, regardless of the continuing nature of certain losses.

Confidence Level: The confidence level is a percentage estimate of the ultimate pool layer costs. The actuary's expected costs are shown at slightly more than average (approximately 55%). About half the time, the actual costs will be lower than the actuary's estimates and half the time the actual costs will be higher. To be more conservative, pools set aside additional sums of money to increase the chance that enough funds are available to pay claims. For example, if the actuary's estimate at the 70% confidence level is \$1M, then there is a 30% chance that losses will exceed \$1M.

Contribution: The amount paid by a PRISM member to receive a specified type of insurance coverage for a defined period of time.

Corridor Retention or Deductible Pool: An aggregated pool layer above which a carrier will reimburse the Program for losses that exceed the aggregate attachment point on a per claim basis.

Deductible Buy-Down: An amount the insured must pay before payments for covered services begin. The deductible is usually a fixed amount. For example, an insurance plan might require the insured to pay the first \$50 of covered expense during a calendar year.

Deposit Premium: Amount of premium paid at the beginning of the coverage period, which is then adjusted to a final premium amount at the end of the coverage period. This is most common in workers' compensation, where premiums are based on estimated payroll amounts at inception and adjusted based on actual payroll amounts afterwards.

Discount Rate: The assumed interest rate used to calculate the present value of future claim liabilities. Also used in calculating premium needed to fund claim payments.

Dividend: An amount reimbursed to a member if it is determined that the initial contribution paid is greater to fund the losses incurred.

DOL (Date of Loss): The first date on which an insured event occurred.

EAP (Employee Assistance Program): A work-based intervention program designed to assist employees in resolving personal problems.

Enterprise Fund: Proprietary fund type used to report an activity for which a fee is charged to external users for goods or services.

Excess Coverage: Insurance coverage which does not provide for payment to the insured until underlying insurance coverage has paid its limits or the insured has paid its self-insured retention.

Excess Insurance: Joint purchase insurance purchased to provide higher limits than the primary policy or pool layer provides. Policy terms may differ and policy covers the member not the pool.

First Dollar Coverage: Insurance coverage that begins with the first dollar of a covered loss. The insured does not have a deductible or self-insured retention to meet before coverage begins as long as the loss is for a covered peril.

Fund: A source of money that is allocated for a specific purpose.

General Liability Coverage (GL): Provides coverage for claims from third parties alleging damages due to negligence on the part of the member arising out of personal injury, property damage, public officials errors and omissions, employment practices liability, and automobile liability.

IBNR (Incurred but Not Reported): This is an actuarial term referring to the estimated future loss development, as well as the estimated cost of claims that have happened but are not yet included in the claims data. A reserve for IBNR is established by the actuary as part of the Ultimate Loss Costs to contemplate for these future estimated costs.

Incurred Loss: This is the expected value of any claim. It includes the amount already paid plus the estimated amount yet to be paid (reserves).

Investment Gap: The difference between what PRISM is currently earning and what was actuarially projected would be earned on funds when premium was calculated, that is the difference between actual earnings rate and discount rate.

Joint Powers Agreement: This is a formal, legal agreement between two or more public agencies that share a common power and want to jointly implement programs or deliver services.

Joint Powers Authorities (JPA): Legally created entities that allow two or more public agencies to jointly exercise powers to work on a common problem, fund a project, or act as a representative body for a specific activity.

Limit of Liability: The most that will be paid in a loss.

Loss Adjustment Expense: the costs associated with settlement of a specific claim, other than the claim payment itself i.e., legal fees, appraisal fees and court costs.

Loss Development: The process of change in amount of losses as a policy or accident year matures, as measured by the difference between paid losses and estimated outstanding losses at one point in time, and paid losses and estimated outstanding losses at some previous point in time. In common usage, it might refer to development on reported cases only, whereas a broader definition also would take into account the IBNR claims.

Loss Portfolio Transfer (LPT): A financial reinsurance transaction in which loss obligations that are already incurred and will ultimately be paid are ceded to a reinsurer. In determining the premium paid to the reinsurer, the time value of money is considered, and the premium is therefore less than the ultimate amount expected to be paid.

Mega Fund: An aggregated pool layer that caps the aggregate to a predetermined limit at which point the excess carrier would “drop down” and begin to reimburse for losses within the JPA’s SIR or pooled layer.

Member: A County or Public Entity participating in the PRISM pool.

MOC (Memorandum of Coverage): The policy or coverage document outlining the terms and conditions of coverage, similar to an insurance policy.

Net Position: Assets plus Deferred Outflow of Resources less Liabilities and Deferred Inflow of Resources. Net Position represents investment in capital assets as well as unrestricted fund balance available for future operations or distribution.

Non-Admitted Insurer: An insurance company not licensed in a state.

Occurrence: An accident or event which triggers coverage.

Occurrence Basis: Method of determining whether or not coverage is available for a specific claim. An occurrence basis policy covers events that occur while the policy is in force, regardless of when a claim is actually made.

Pool Layer: The insurance coverage retained by PRISM. Losses within this layer are paid by PRISM.

Pooled Loss: The portion of a loss that is allocated to, or paid by, the self-insured pool. For example, the General Liability Program I pools, or self-insures the difference between a member’s SIR and \$5M of each occurrence. Loss costs exceeding this amount are paid by excess insurance.

Premium: The amount paid by a PRISM member to receive a specified type of insurance coverage for a defined period of time-see also Contribution.

Provision for Insured Events: The expense amount for pooled claims on the Statement of Revenues, Expenses and Changes in Net Assets (Income Statement).

Quota-share arrangement: An agreement between two insurers to split the cost of claims within a coverage layer based upon a certain formula or percentage.

Reinsurance: Insurance purchased by PRISM from other insurers to reimburse the pool for covered losses. Losses revert to PRISM if the reinsurer is unable to meet its obligations. Reinsurance provides coverage to the pool, and is identical to what the pool covers.

Retained Risk: The portion of risk that the pool self-funds.

Reserves: The estimate of the total cost of a claim. Reserves may be estimated by category, such as personal injury, property damage, or medical costs.

Risk Pools: A group of entities collectively purchasing a certain type and level of insurance to protect them from claims covered by that insurance. Pooling is designed to help provide more stable rates over the long-term horizon and also helps to reduce the cost of insurance by spreading fixed administrative costs over a larger group.

Self-Insurance: Practice of an individual, group of individuals, employer or organization to pay for losses rather than transfer the cost to another. The entity may self-insure all or a portion of the expected losses.

SIR (Self Insured Retention): This is the amount of each loss for which the member is responsible. Once the value of the claim has exceeded their SIR, the member may seek reimbursement for those expenses in excess of their SIR.

Target Equity: The range of net position that various governing committees decide is appropriate. Committees use an actuarially determined confidence level discounted for investment income and a variety of target ratios (such as gross premium to equity target ratio) to determine the target equity range.

Third-party Administrator (TPA): An entity that is hired to handle the administration of claims processing.

Tower: Various programs have many different insurance placements or segregation of members into types, which PRISM categorizes as “towers” to illustrate the separation or layering of the various placements.

Transferred Risk: The portion of risk, insured or reinsured, by a private insurer or reinsurer and not retained by the pool.

ULAE (Unallocated Loss Adjustment Expenses): In the context of risk financing, costs that cannot be associated with specific claims, but are related to claims paid or in the process of settlement, such as salaries and other internal costs of the pool’s claims department. This amount is calculated for the entire life of the claim.

Ultimate Net Loss: The total cost of a claim. The difference between incurred loss and Ultimate Net Loss is the loss development or IBNR-the actuary may estimate that losses may develop or become larger because of inflation, changes in law etc.
